Subject: Re: Anonymous Testimony
Date: Thursday, January 22, 2026 10:25:43 PM

Good Afternoon:

I am forwarding information from someone who wishes to be Anonymous in this testimony. I cannot say who gave information. But heard from other relatives of conditions. Here are their concerns to be addressed at next hearing:

1. Would like to state that we are constantly held in our cell for too many shutdowns. With no activities whole day. Even eat meals in our cells. Our tablets are restricted from making calls or watching anything.
2. Services for Medical takes 15 days to get medical help. right now there's an "Epidemic Covid" going on with the whole kitchen staff on lower section.
There's barely heat in winter that makes us sick.
3. Mailings take long to receive or being told nothing came. even when proof is shown that it was delivered to mailroom.
4. The Staff claims shortages or staff call outs causing us to not have Recreation. But they have time to do potluck meals within themselves, while we get served peanut butter jelly for dinner on holidays.
5. Security Codes takes too long to clear.
6. Laws have passed in Connecticut, That allows inmates at least 5 hours out our cells, for recreation, and we dont get that.

These are our concerns that needs to be addressed.

Sincerely
The inmates of Corrigan Facility.
