I have a few complaints, however I'm only gonna address one. I have a hard time getting pictures sent to me by family members. Every time my wife send me pictures I never get them, nor do they send them back home. They don't send me a rejection notice, so I want to know what they're doing with my mail. My step daughter sent me pictures for Christmas, and I still haven't received them, nor have they got sent back home, nor have I got a rejection notice. The situation with my wife hasbeen going on for approximately 3 years now. I lost a lot of pictures from my wife in the last 3 years. It has one more time to happen and I'm gonna have my wife report it to the Cheshire State P.D. With this being said, I hope this will be one of the issues that is addressed.
