

**Name:** Darnell London

**Title:**

**Organization or Agency:**

**Topic:** Meeting Date Not Listed

NA

**Testimony:**

At this facility, they don't give us proper heat all the time ....by making us take cold showers or not having a hot enough hot pot.....they pump AC in the winter at weird times and then pump a lil bit of heat.....I got to this facility in July and have been waiting for MRI and proper medical attention till this day.....at Macdougall and Walker I had a slip and fall ...they have retaliated by not giving me proper medical care....by not putting an incident report ....by kicking me out the jail....by firing me with no proper cause ....by hiding the video of my fall after I have foied the footage for months with exact time frame needed ....and basically not taking accountability for negligence that cause the injury....unfair commissary dates at Carl Robinson....you pay one week and get your food 2 weeks after and most likely will have food missing.....I have eczema and they don't treat it.....I got hemorrhoids because of jail and they don't treat it.....you need any more info, let me know.
