**Testimony:**

Dear members of the Correction Advisory Board,

I ask you take your job seriously and put the children who are in prisons and their safety first. Too many juveniles are touched inappropriately by the officers and wardens in our state facilities. I urge you to hold a hearing and bring these pedophiles to justice. No child should be unsafe, whether they did a crime or not. I believe that these officers are apart of a child trafficking ring and their corruption knows no bounds. I ask that you follow President Trump, the Justice Department and Homeland Security to help bring God's children to safety. They don't have advocates as they are taken abroad and sold into modern day slavery. Please use your power and bring the Department of Corrections to justice!

Sincerely,  
Donna Farland
