

**Name:** Dontay D Early

**Title:**

**Organization or Agency:**

**Topic:** Meeting Date Not Listed

NA

**Testimony:**

(1) What I would like to change is the conditions of not showering when I come back from the yard or the gym. I'll have to choose to go or not go and return to the cell and bathe in the sink and wait an additional two to three hours and a half to take a shower and that's hoping we're not on lock down... other blocks go to the gym and yard and come back to the block and have a hour and ten minutes between both tiers to shower I BELIEVE THAT SHOULD BE UNIVERSAL..

(2) There is an epidemic with this k2/ roach spray in prison and it's not getting any better or controlled the way they thought they could. We are being deprived our mail/ legal mail in a timely manner because the "Administration" deems it plausible to take our original letters or documents and copy them or do testing on every paper or picture we receive before giving it to us and that is not right. I only propose "Get It Together"...

(3) In person visiting time should be on a UNIVERSAL first come basis. Not; this prison has a set time of being here forty five minutes in advance, then when our supporters are here on time the correctional officers are so spiteful in the visiting control room, they contact the block the inmates are in ten or five minutes before or after the visiting time has started. That is purely UNACCEPTABLE!!! as soon as our supporters have retained their spot or the visiting sheet is filled in its entirety the officers need to notify all whom has a visit at said time... There should be no forty five minute check in waiting period that is preposterous... please fix it...

(4) These officers are so playing both sides of the fence and really don't grasp the fact that we ALLOW them to have free roam with their gadgets they're prohibited to have in a state facility which is a punishable offense. It is so easy to just write down the times they are watching their movies or talk texting on their watches... They want to be STRICT about things that are not interfering with their duties but turn around and hop on their watches and text and call at anytime they feel ON THEIR SHIFT!!! Some just hide their phones right in between their lunch bags and watch movies, games and boxing matches like it's not a crime they're committing... I have no problem with that its just that if they're allowed to do it then GIVE us the same to purchase on commissary or make them play the side of the fence they signed up for and took a pledge and oath too...

(5) We should be able to have cameras in the tablet so we can face time with our supporters any time we choose or have cell phones purchase-able on commissary just as other states do...

I know what I have not brought forth the other convicts will...

Thank You for listening to our

CONCERNS and PROPOSALS NOT COMPLAINTS!!!
