

**Name:** Terry Johnson

**Title:**

**Organization or Agency:**

**Topic:** Meeting Date Not Listed

NA

**Testimony:**

There is always something in these places. They are so quick to point out and use " rules and regulations " to dictate our behavior, but think and feel that the rules and regulations that dictate and govern their actions and behavior, doesn't apply to them. Especially, the rules, regulations, and state law, that states that they are prohibited from bringing any electronic devices (Cellphones etc ) into any Correctional Facility. Yet, you see almost every staff member using a cellphone or Smart Watch while on duty. Then, when an inmate gets caught with a cellphone, the Administration blames it on our access to contact visits. Despite the fact that almost every cellphone found in the possession of an inmate, was brought in and given to them, or sold to the inmate by a staff member.
