Dear Mr. Vazquez,

Thank you for contacting the Inmates' Legal Aid Program (ILAP). This letter is in response to four telephone calls you placed with our office on March 17. On the first call you said you were unable to attend to have your hearing in front of the General Assembly and you wanted a legal call to discuss what is next. On the second call you called back asking if the call was scheduled. On the final two calls, when Asha answered you hung up the phone.

If you were unable to attend the hearing, you have to reach out to the Claims Commissioner's office to find out what happened. The General Assembly could have went forward with the hearing or rescheduled it for a new date. Whatever the outcome of the hearing, they will provide you with a notice of the decision. My suggestion is that you touch base with the Claims Commissioner because they are the appropriate contact in this situation.

In the future, please speak with whichever paralegal that answers the phone. I understand you may want to talk with someone else however whoever is available is the one who answers the phone. There is no need to hang up and call back immediately in hopes of getting another person to pick up. If you have further questions, please call or write to our office. Thank you.

Sincerely,

Bryan Canning, Esq.

If you are sending in documents you would like returned please indicate so. If you do not state that you want the documents returned they will be scanned into our system and the originals will be shredded.
