**Testimony:**

Correction Advisory and Judiciary Committee members,

My response to what I saw on Facebook about this report is that you need to make our prisons places that are more welcoming to the LGBTQIA community. I find it so sad that there are not places for polycule relationships to form in the jail cells. Often the joke is made about dropping the soap but I assure you more happens in the mess hall. A lot of mess happens there in the mashed potatoes. I ask you to include making our inmates dress as drag queens in sexy dresses. Every man in prison is hot with their workout regimes. So forget that the prisons are in bad shape aesthetically because I assure you the men are fine.
