**Title:**

**Organization or Agency:**

**Topic:** Meeting Date Not Listed

NA

**Testimony:**

In Corrigan they lock us down all day even when there are no codes. Or if there is a code they don't clear it for the day so the COs can sit in the bubble and play on their phones. On top of that the COs antagonize inmates to get a reaction and if an inmate responds they go to seg.

In Carl Robinson I hurt my knee and the COs wouldn't send me to medical. I had to wait 3 weeks to be seen after writing a slip. Another 2 weeks for an Xray and I still haven't been looked at after that. I was limping around and my knee has been in pain since the end of November. They charged me \$3 to do nothing. Thank god I EOS in 36 days where my family will be taking me to get seen by a real medical professional and a specialist.

In Carl Robinson there are leftover mouse nests in the kitchen. We see the pieces when we clean on the line, so there's mice all under the serving line.
