**Testimony:**

I write with such disgust that Connecticut has allowed for such poor policing laws that we have to feel ashamed to speak badly about the criminals in the correctional institutions. As a mother, I think we should put the safety of our children and grandchildren above everything else. That has not happened. Stop feeling bad if an inmate dies in jail. They should! It less for me to pay to house and feed them. Bring common sense back to how we deal with the inmates. They are there for the bad things they did. Keep my children safe.
