OPPOSITION: Removal Of Religious Exemption.

Greetings respected members of the Public Health and Children's Committees.

My Name is Michael Moga from Sherman Connecticut. As a Father of two young children, I strongly object to the removal or weakening of the religious exemption to vaccine injections. Now or in the future.

It is my right as a parent to choose what if anything is injected into my child's bloodstream.

Over 4 billion dollars has been paid out in Vaccine injury compensation, but I am to accept that the Center for Disease Control is infallible? I don't think so. Furthermore, read the Vaccine Product Inserts. No really, read them. Look up any one. The stated possible adverse reactions are unacceptable.

Section 13.1 states that they have not been tested for carcinogenic or mutagenic potential or impairment of fertility. By definition they are unsafe.

The right to protect my children doesn't come from government. As a father, I know it in my bones.

I will not accept any vaccine mandates.

Sincerely,

Michael David Moga
