### Adjust Debt Service to Reflect Borrowing Costs

Debt Service	-	-	(14,437,500)	(63,903,125)	(14,437,500)	(63,903,125)

#### Background

The amount of funding provided for debt service depends on both existing outstanding debt and projections of the costs of repayment of newly issued debt. New debt issued is related to the recent and anticipated spending in bond-funded programs. As of FY 19, General Obligation (GO) bond issuance was limited, by statute (CGS 3-21) and the "bond lock" provision required to be included on bond covenants, to \$1.9 billion per fiscal year. This total excludes higher education bonds for the CSCU 2020 and UConn 2000 programs and the use of GO bonding for transportation purposes.

Improved credit-worthiness of the state has resulted in lower than anticipated debt service payments from recent bond issuances. Likewise, the rate of bond spending for FY 18 and FY 19 led to lower bond issuances in those years, limiting new debt repayment requirements.

#### Committee

Reduce debt service payments to reflect lower bond issuance in FY 18 and FY 19 and improved credit-worthiness of the state.

**Governor**

Limit GO bond issuance by an additional \$300 million to \$1.6 billion, while maintaining existing exemptions for higher education bonding. The proposal would also not use GO bonds for transportation purposes, which had been allowed for FY 19 and FY 20 (PA 18-178). The Governor estimates a resulting reduction in General Fund debt service of \$14 million in FY 20 and \$64 million in FY 21.

**Committee**

Do not reduce issuance to reflect the proposed "debt diet."

**Limit Transportation Bond Issuance in FY 21**

<b>Total - Special Transportation Fund</b>	-	<b>(8,300,000)</b>	-	<b>(8,300,000)</b>	-	-

**Background**

The amount of funding necessary for debt service is dependent on both existing outstanding debt and projections of the costs of repayment of debt to be issued in the future. New debt issuance is closely related to recent and anticipated spending in bond-funded programs. Special Tax Obligation (STO) bonds rely on the Special Transportation Fund (STF) for debt repayment. PA 18-178 limits the issuance of Special Tax Obligation bonds in FY 19 and FY 20 to \$750 million. PA 18-178 also requires the State Bond Commission to allocate up to \$250 million of transportation bonds legislatively authorized as STO debt as General Obligation (GO) debt in each of CY 18 and CY 19. STO bond authorizations that are issued as GO debt are exempt from GO bond limits, including the debt limit, allocation cap, and issuance cap. The Official Statement for the October 2018 STO bond issuance indicates that the state expected to issue \$1 billion of STO bonds in FY 21, absent other changes to the STF.

**Governor**

The Governor's proposal would limit STO bond issuance in FY 21 to \$800 million, a reduction of \$200 million from baseline projections. The Governor estimates a resulting reduction in STF debt service of \$8.3 million in FY 21.

The proposal would also not use GO bonds for transportation, limiting total FY 20 transportation bond issuance to \$750 million.

**Background**

Debt service reflects the state's obligation to make payments on services and goods provided in previous years. General Fund-backed bond spending, including UConn 2000 spending, increased from \$1.6 billion in FY 14 to \$2.5 billion in FY 17, before falling to \$1.8 billion in FY 18. Similarly, Special Transportation Fund-backed bond spending peaked in FY 17 at over \$1 billion, before falling to \$779 million in FY 18. Bond spending in previous years to debt service payments in the current biennium, as payments are made on issued bonds. In FY 20, over 90 percent of the projected baseline debt service payment is to repay bonds that were issued prior to FY 19.

**Governor**

Provide funding of \$107 million in FY 20 and \$340 million in FY 21 across all funds to reflect debt repayment schedule, based on prior and projected bond spending.

#### Background

The FY 18-19 adopted budget (PA 17-2 JSS) established the Municipal Accountability Review Board (MARB) and included a total appropriation of \$48 million per year, split between two agencies (\$28 million through OPM and \$20 million through Treasurer's debt service). Based on a contractual agreement between MARB and the city of Hartford in March 2018, the state agreed to make specified debt service payments on debt issued by Hartford.

For the 18-19 biennium, the state's payments were made using a combination of the two agency's municipal restructuring accounts.

Absent a restructuring or refunding of the debt, the full repayment schedule of the Hartford debt is as follows (debt service (DS) figures in millions \$)

FY	DS	FY	DS	FY	DS	FY	DS

**Background**

PA 11-48 required the state to move towards Generally Accepted Accounting Principal (GAAP) based budgeting. Under GAAP expenses are assigned to the fiscal year in which they are incurred as opposed to a modified cash basis, where the expenses are reflected when they are paid. GAAP accruals were first reflected in the FY 14 and FY 15 biennial budget. The accruals reflect the difference between an agency's modified cash basis budget amounts and the accrual basis amounts under GAAP.

**Governor**

Adjust funding by \$8,884,072 in FY 20 and \$20,228,946 in FY 21 across seven appropriated funds for GAAP accrual payments to reflect current requirements.

### Background

CGS 5-155a authorizes eligible unclassified employees of the constituent units of higher education to participate in an alternate retirement program (ARP), a defined contribution plan. Pursuant to the SEBAC 2017 Agreement the state's contribution is 7.25% of salary and employees contribute 5.75%. In FY 20, these contribution rates are modified by 1/4% to 7% and 6% respectively. For employees hired on or after July 31, 2017, the state contribution is 6.5% and the employee default contribution is 6.5%. The state's contribution is paid for from various funding sources and is based on where the employee's salary is charged. Currently, recoveries from other funding sources, predominately tuition funds of higher education institutions are deposited into the ARP appropriation within the General Fund (GF) for non-GF supported employees as an expenditure offset. In recent years the recoveries have exceeded GF expenditures. The Governor recommends gross appropriating the ARP account whereby all recoveries will be deposited into the GF as revenue and the GF appropriation will reflect the state's contribution for those employees whose salaries are supported by the GF (including those employees funded out of the higher education block grants).

### Governor

Provide funding of \$30,043,700 in FY 20 and FY 21 to reflect gross appropriating the ARP account. There is a corresponding increase in GF revenue of \$43,700,000 in FY 20 and \$43,400,000 in FY 21.

### Committee

Provide funding of \$24,033,700 in FY 20 and FY 21 to reflect gross appropriating the ARP account. There is a corresponding increase in GF revenue of \$34,998,400 in FY 20 and \$34,737,600 in FY 21. The difference from the Governor is related to the finalization of the ARP transfers effective January 18, 2019 to the State Employees' Retirement System (SERS) pursuant to the 2010 State Employees' Bargaining Agent Coalition (SEBAC) ARP Grievance Award (SAG Award).

**Background**

The State Employees' Retirement System (SERS) is the state's defined benefit plan for approximately 50,000 active and retired state employees. SERS is currently funded using an actuarial reserve funding method, whereby the normal cost and past service liability are calculated in order to determine the state's annual actuarial determined employer contribution (ADEC)(CGS 5-156a). SERS is a collectively bargained benefit. The current agreement governing pension benefits was last revised in 2017 and is effective until 2027. The SERS ADEC is funded through three sources: a General Fund appropriation, Special Transportation Fund appropriation and recoveries from other funding sources, including other appropriated funds, federal funds and grant funds.

**Governor**

Provide funding of \$104,201,856 in FY 20 and \$209,620,004 in FY 21 in the General Fund (GF) and \$36,523,058 in FY 20 and \$49,647,058 in FY 21 in the Special Transportation Fund (STF) to fund the GF and STF portion of the SERS ADEC in the biennium.

**Background**

The SEBAC 2017 Agreement established a new Tier IV within the State Employees' Retirement System (SERS), a hybrid defined contribution/ defined benefit tier, for employees hired on or after July 31, 2017. Tier IV has approximately 2,300 employees. The state's contribution, as well as the employee's default contribution towards the defined contribution portion, is 1% of salary. The 1% contribution is not included as part of the state's actuarially determined employer contribution (ADEC) for SERS and therefore a new account is recommended to distinguish between the employer's contribution towards Tier IV employees' defined contribution accounts versus the General Fund's share of the SERS ADEC.

**Governor**

Provide funding of \$2,061,198 in FY 20 and \$3,143,840 in FY 21 in the General Fund and \$224,885 in FY 20 and \$343,006 in FY 21 in the Special Transportation Fund to reflect the state's contribution towards Tier IV employees' defined contribution accounts.

#### Background

State Property PILOT: This is a reimbursement to municipalities for the tax loss resulting from the presence of state property. Towns are reimbursed at 45% of taxes that would have been paid if not for the tax exemption on most state property. Connecticut Valley Hospital in Middletown is reimbursed at 65%. Three types of property are reimbursed at 100%: 1) prison property, 2) the portion of the UConn Health Center used to provide medical care to prisoners, and 3) some land owned by Native American tribes. The grant is proportionately reduced in years in which the appropriation is insufficient to fully fund the grant.

College & Hospital PILOT: This is a reimbursement to municipalities for the tax loss resulting from the presence of private college and hospital property. Towns are reimbursed at 77% of the taxes that would have been paid if not for the tax exemption. The grant is proportionately reduced in years in which the appropriation is insufficient to fully fund the grant.

Sec. 183 of PA 15-244 set minimum reimbursement rates for PILOT grants based on the amount of tax exempt property in a municipality. In the event that the amount appropriated for PILOT grants in a given year was insufficient for full funding, the Act required towns to receive additional PILOT payments necessary to achieve these minimum reimbursement rates.

Pequot Grants to Towns: Towns receive a portion of the slot machine revenue received by the state from Native American gaming casinos. The amount received by towns is equal to the amount appropriated for the grants in a given fiscal year. The grants are distributed based on 1) College & Hospital and State Property PILOT payments, 2) population, 3) equalized net grand list per capita, 4) per capita income, and 5) status as a distressed municipality. Additional funding is distributed to 1) all municipalities in the Southeastern Connecticut Council of Governments, and 2) distressed municipalities in the Northeastern Connecticut Council of Governments.

#### Governor

Reduce funding by \$78,323,739 in both FY 20 and FY 21 (\$70,166,535 in the General Fund and \$8,157,204 in the Pequot Fund) to reflect funding of State Property PILOT, College & Hospital PILOT, and Pequot Grants to Towns at FY 19 levels.

#### Background

Municipal Transition Grants, also known as Car Tax grants, reimburse municipalities for the revenue loss resulting from a cap on motor vehicle mill rates. PA 17-2, the FY 18 and FY 19 budget, set the cap at 45 mills for FY 19 and annually thereafter. The act also specified a distribution of grant funding for FY 19 based on estimated FY 18 mill rates, but required the Office of Policy and Management to calculate grants based on actual mill rates in FY 20 and annually thereafter.

#### Governor

#### Background

PA 17-2, the FY 18 and FY 19 budget, established two Municipal Restructuring accounts within the Office of Policy and Management and the Treasurer's Office to provide assistance to certain financially distressed municipalities. The act also established the Municipal Accountability Review Board (MARB) to assess the financial health of municipalities and to provide oversight and assistance to financially distressed municipalities. On March 27, 2018, MARB and the City of Hartford reached a Contract Assistance Agreement for the State to make debt service payments on behalf of the City. Those payments total approximately \$45.7 million in FY 20 and \$56.3 million in FY 21.

#### Governor

Reduce the Municipal Restructuring account by \$20,000,000 in both FY 20 and FY 21 to reflect the funding of the City of Hartford's debt service payments via the Treasurer's Office. The Municipal Restructuring - Debt Service account within the Treasurer's Office is adjusted accordingly.

The Department of Administrative Services (DAS) manages workers' compensation claims functions for most state agencies. Currently, nine agencies manage their own appropriations: the Departments of Children and Families, Corrections, Developmental Services, Emergency Services and Public Protection, Mental Health and Addiction Services, the Board of Regents, the Judicial Department, UCONN Health Center and UCONN.

#### Governor

Provide funding of \$376,845 in FY 20 and \$654,270 in FY 21 for increased medical and indemnity costs related to medical and wage related increases for workers' compensation claims expenditures for those agencies under the purview of DAS. Funding assumes an increase of approximately 4.5% in indemnity expenses in FY 20 and 6% in FY 21. Medical costs assume an increase of 5.5% in FY 20 and 5.7% in FY 21.

### Reduce Funding for Overtime

#### Background

In FY 18, agency overtime expenses totaled \$18.9 million, a 35% increase from FY 17. Through the first two quarters of FY 19, overtime increased by 37% over the same period in FY 18. The recent increase in overtime is partially attributed to a surge in retirements and trooper attrition. In FY 18, there were approximately 100 retirements, almost double the agency's annual average. Due to lack of funding, the agency has been unable to fill positions; sworn trooper count has decreased from over a previous 1,200 to approximately 980 as of January 2019.

#### Governor

### Provide Funding to Establish a Paid Family Medical Leave Program

<b>Total - General Fund</b>	<b>5,170,575</b>	<b>-</b>	<b>5,170,575</b>	<b>-</b>	<b>-</b>	<b>-</b>

#### Background

SB 881, *AA Establishing a Paid Family and Medical Leave Program*, establishes a program to provide up to 12 weeks of paid coverage for family and medical leave, with an additional two weeks for a serious health condition that occurs during a pregnancy. On-going funding for the program is provided via a 0.5% payroll tax beginning on or before October 1, 2020; benefit payments are provided on and after January 1, 2022.

#### Governor

Provide funding of \$5,170,575 in FY 20 only for start-up costs associated with establishing a paid family and medical leave program. This consists of \$3.5 million for partial-year funding for 45 staff and associated fringe costs (assuming an average salary of \$80,500), as well as \$1.2 million and \$435,000 for facilities and information technology costs, respectively.

Program administration costs in FY 21 and beyond are funded entirely via a 0.5% payroll tax (capped at the Social Security tax base) levied on certain employees. It is estimated that the payroll tax will yield approximately \$400 million on an annualized basis; administrative costs are anticipated to equate to approximately 5% of tax receipts (or approximately \$20 million annually).

#### Background

The Connecticut Career Resource Network (CCRN) is the primary source of Connecticut-specific career information used by the education community (teachers, guidance counselors, students, parents, and other individuals), employment counselors, job seekers, and workforce development program planners and providers. CCRN promotes improved career and education decision-making by students and other individuals, and supports lifelong learning by improving access to occupational information by individuals and those who assist them. This information is provided through publications, workshops and conferences, Internet-based information systems, training, and distribution of career-related materials. These career information resources highlight the link between education and work. The CCRN provides resources for individuals to explore career opportunities, identify the education or training required for occupations of interest, develop a post-secondary transition plan, and select post-secondary schools that offer degrees and certificates in those programs. It also works with counselors and classroom instructors on how to use career development resources as tools to engage students and thus reduce dropout rates and increase academic attainment.

#### Background

PA 05-228, the "Community Investment Act" (CIA) provides funding through a \$40 recording fee collected on every real-estate transaction in the state. Revenue derived from this source is then distributed quarterly to four state agencies: (1) the Department of Energy and Environmental Protection (DEEP) for open space; (2) the Department of Agriculture (DoAg) for grants to dairy farmers, farmland preservation and other DoAg programs; (3) the Department of Economic and Community Development (DECD) for historic preservation, and; (4) the Department of Housing for affordable housing projects.

The CIA account currently supports the following historical preservation activities: (1) Basic Operational Support Grants available by application to local nonprofit historic preservation groups which can be used to survey historic resources, provide public education and plan for historic preservation in their communities; and (2) a grant to the Connecticut Trust for Historic Preservation. Prior to FY 16, the Connecticut Trust for Historic Preservation also received an appropriation through the General Fund in addition to the CIA grant. Additionally, the CIA account funds staffing for the administration of these programs.

#### Governor

Provide two positions and funding of \$2,824,650 in FY 20 and \$2,831,626 in FY 21 for historic preservation activities that are currently funded through the non-appropriated CIA account.

#### Committee

Do not provide funding for CIA in the General Fund. Maintain funding for the CIA accounts off-budget.

#### Background

CT Open is a Women's Tennis Association (WTA) tournament featuring five different competitions, including WTA qualifying, WTA singles, WTA doubles, PowerShares Men's Legends, and the US Open National Playoffs Championship. The Tennis Foundation of Connecticut (TFC), a 501(c)(3) non-profit, organized the tournament each August at the Connecticut Tennis Center at Yale in New Haven. The TFC has recently sold WTA's Premier Sanction to a sports marketing and management company which will be hosting the tournament to Zhengzhou, China in September 2019.

CT Open has received a General Fund appropriation since FY 14 through the Capital Region Development Authority line-item and through the CT Open line item for FY 19.

#### Governor

Transfer funding of \$250,000 in FY 20 and FY 21 for CT Open to the Statewide Marketing line-item account to support marketing activities in lieu of the tournament which is to be relocated out of state.

#### Committee

Transfer funding of \$150,000 in FY 20 and FY 21 for CT Open to the Statewide Marketing line-item account to support marketing activities in lieu of the tournament which is to be relocated out of state.

#### Background

Effective July 1, 2013, Public Act 13-234 transferred various functions, powers, and duties related to housing from the Department of Economic and Community Development (DECD) to the newly created Department of Housing (DOH). Upon the establishment of DOH, the two departments were co-located and entered into a memorandum of understanding regarding the sharing of administrative functions and resources. The agencies are now in separate locations in Hartford.

#### Governor

Transfer funding of \$10,948 in both FY 20 and FY 21 from DECD to DOH for certain office expenditures to better reflect the agency incurring the expenses. The office expenditures include office equipment rentals, shredding services, information technology (IT), communication and other incidentals.

#### Background

PA 05-228, the "Community Investment Act" (CIA), provides funding through a \$40 recording fee collected on every real-estate transaction in the state. Revenue derived from this source is then distributed quarterly to four state agencies: (1) the Department of Energy and Environmental Protection (DEEP) for open space; (2) the Department of Agriculture (DoAg) for grants to dairy farmers, farmland preservation and other DoAg programs; (3) the Department of Economic and Community Development (DECD) for historic preservation, and; (4) the Department of Housing (DOH) for affordable housing projects.

DOH has used CIA funds to provide a variety of homeless supports including Coordinated Access Networks, the 2-1-1 Info Line, cold weather protocol and grants.

#### Governor

Provide CIA funding for Homeless Supports of \$2,480,415 in both FY 20 and FY 21 to the General Fund to provide greater transparency and accountability.

#### Committee

Do not provide funding for CIA in the General Fund. Maintain funding for the CIA accounts off-budget.

### Provide Funding for Housing Component of Medicaid Supportive Housing Initiative

#### Background

Connecticut was selected to participate in the Medicaid-Housing Partnership Innovation Accelerator Program (IAP) in 2016. The initiative provided technical assistance to the state to help design ways to support individuals served by Medicaid in accessing and retaining stable housing and meaningfully engaging with their health goals. Under this proposal, the Department of Social Services (DSS) will develop a 1915(i) state plan amendment for a home and community-based services benefit to serve up to 850 individuals who experience homelessness and whose average Medicaid costs exceed \$40,000 per year. By providing stable housing and tenancy-sustaining wraparound services, this initiative is expected to allow participants to effectively access and engage with goals and action steps around their health, resulting in a 40% reduction in DSS Medicaid costs.

#### Governor

Provide funding of \$459,200 in FY 20 and \$2,258,300 in FY 21 for supportive housing vouchers, administered through the state's rental assistance program (RAP), for high cost, high need individuals as part of a new DSS initiative. The annualized cost to DOH for FY 22 is projected at \$3,450,000, when the program would be at full capacity with approximately 345 rental assistance vouchers. Related savings are reflected in the DSS Medicaid account.

#### Background

This joint DSS and DOH proposal is intended to strengthen DSS rebalancing efforts under the Money Follows the Person program and would increase the rate of DOH-funded supportive housing placements above currently planned levels.

#### Governor

Provide funding of \$239,120 in FY 20 and \$1,324,680 in FY 21 for rental assistance vouchers to provide supportive housing for approximately 222 additional DSS clients to transition out of institutional care by the end of FY 21. Upon the establishment of DOH, the two departments were co-located and entered into a memorandum of understanding regarding the sharing of administrative functions and resources. The agencies are now in separate locations in Hartford.

#### Governor

Transfer funding of \$10,948 in both FY 20 and FY 21 from DECD to DOH for certain office expenditures to better reflect the agency incurring the expenses. The office expenditures include office equipment rentals, shredding services, information technology (IT), communication and other incidentals.

DOH provides housing placements to eligible individuals through the state's rental assistance program (RAP). In February 2019, RAP was supporting 1,414 units of MFP housing.

#### Governor

#### Background

The Subsidized Assisted Living Demonstration program was developed to provide a community-based housing and service setting for low-income seniors who are eligible for the DSS Connecticut Home Care Program for Elders. These are seniors who otherwise might have to move into a more expensive nursing home setting. Through the Connecticut Housing Finance Authority (CHFA) who manages the projects, DOH provides rental subsidies to help offset the cost of rent for the low and very-low income elderly residents. Pursuant to a longstanding Memorandum of Understanding (MOU), CHFA calculates the rental subsidies in an amount sufficient to pay the actual debt service on the mortgage loans and bonds. The MOU further requires the Office of Policy and Management to include this amount in the Governor's budget submission.

The program includes four properties with a total of 226 units.

#### Governor

Increase funding by \$527,759 in FY 20 and \$593,759 in FY 21 to provide adequate rental subsidies to meet actual debt service on mortgage loans and bonds for the facilities as determined by CHFA.

### Background

CGS Section 19a-7j establishes a state vaccine purchase program. Funding for the Connecticut Vaccine Program (CVP) is generated by a Health and Welfare Fee that is assessed on each domestic insurer, health care center, and third-party administrator that does health insurance business in the state. CVP uses this funding to purchase vaccines at the lowest possible price through a Centers for Disease Control and Prevention (CDC) contract. It then provides these vaccines at no cost to health care providers for the immunization of children with private insurance. (Health care providers may still charge an administration fee.) As they are insured, these children are not eligible to receive the 16 vaccines provided by the federally-funded Vaccines for Children (VFC) program. The vaccines provided by CVP prevent against 14 different diseases: (1) Diphtheria, (2) Hepatitis A, (3) Hepatitis B, (4) Human Papillomavirus, (5) Influenza, (6) Measles, (7) Mumps, (8) Rubella, (9) Polio, (10) Meningococcal, (11) Pertussis, (12) Pneumococcal, (13) Tetanus, and (14) Varicella (Chickenpox).

### Governor

Provide Insurance Fund support of \$4,497,327 in FY 20 and \$8,756,847 in FY 21 to make additional vaccinations available to privately insured children through the CVP. Coverage will be expanded to include: (1) the rotavirus vaccines for children 18-months-old through age two (effective 10/1/19), (2) serogroup B meningococcal vaccine for youth 16 years-old through 18 years-old (effective 10/1/19), and (3) the influenza vaccine for children ages five through eighteen (starting in FY 21).

### Background

Connecticut has 66 local health departments. Thirteen (13) employ a part-time director of health and 53 employ a full-time director of health: 20 are regional districts of health and 33 are single-municipality health departments. Local health department responsibilities include the enforcement of the Public Health Code, the authority to levy fines and penalties for violations, to grant and rescind license permits (such as for food services establishments or septic systems), and to establish fees for the other services that they provide, such as those mandated pursuant to CGS Sec. 368e (municipal) and CGS Sec. 368f (district).

DPH provides grants-in-aid of \$1.18 per capita to 16 full-time municipal health departments that serve at least 50,000 people, pursuant to CGS Section 19a-202. The agency also provides grants-in-aid of \$1.85 per capita to 19 district health departments that serve at least 50,000 people and/or at least three (3) municipalities, pursuant to CGS Section 19a-245. Per these statutes, approximately \$4,678,322 is required in both FY 20 and FY 21 to support per capita grants-in-aid to municipal and district health departments.

### Governor

Reduce funding by \$935,666 in both FY 20 and FY 21 to reflect a 20% decrease in DPH funding for local and district health departments. It is anticipated that this reduction will be prorated across health departments. Sections 2 and 3 of the Governor's Public Health Implementer (LC0 4433) authorizes this change.

#### Background

CGS Sec. 19a-55 requires that all newborns delivered in Connecticut are screened for selected genetic and metabolic disorders. Every baby born in the state receives a newborn screening blood-spot test. This is done by taking a few drops of blood from the baby's heel one to three days after birth. The blood is sent to the Dr. Katherine A. Kelley State Public Health Laboratory where it is tested for over 60 health problems, including: Amino Acid Disorders, Fatty Acid Oxidation Disorders, Organic Acid Disorders, Endocrine Disorders, Peroxisomal Disorders, Hemoglobin Disorders, Hemoglobin Traits, Immune Disorders, Biotinidase Deficiency and Disorders of Galactose Metabolism.

Section 346 of PA 15-5 JSS increased the fee per infant screened, starting in FY 16, from \$56 to \$98. In 2017 the fee was increased from \$98 to \$110 in the Governor's Executive Order Budget.

#### Governor

Provide funding of \$98,000 in FY 20 and \$100,646 in FY 21 to expand newborn screening panels to include three nationally recommended disorders: Pompe Disease, Mucopolysaccharidosis type I (MPS 1), and Spinal Muscular Atrophy. Section 1 of the Governor's Public Health Implementer authorizes this change. Costs are anticipated to be fully recovered by additional revenue created from increasing the newborn screening fee per baby screened by three dollars, from \$110 to \$113.

As residents of Southbury Training School (STS) transition to community placements, residential cottages have gradually closed. The number of individuals residing at STS was 224 at the end of FY 17 and 197 at the end of FY 18, a reduction of 27.

The number of public group homes has slowly decreased as new group home development is done through the use of private providers. The number of public group homes was 60 at the end of FY 17 and 42 at the end of FY 18. In FY 19, ten public group homes are being converted to private providers. #### Background

Individuals supported by DDS, particularly those with acute clinical needs, can be served by the agency through the establishment of community capacity to: (1) divert individuals in crisis from emergency departments, as appropriate, and (2) reduce long-term residential placements overall. It is anticipated that a mobile crisis response system could divert individuals in crisis from emergency rooms. In concert with an expansion of wraparound supports, a hospital diversion system is expected to mitigate long-term residential placements overall. The newly established emergency placement initiatives include state-operated initiatives including (1) a step-down/step-up unit allowing DDS teams to develop comprehensive consumer transition plans with clinical supervision, (2) respite center, (3) enhancement of Individual and Family Teams, and (4) mobile psychiatric services facility liaisons.

#### Background

The Department of Housing (DOH), DDS and DSS issued a notice of funding availability to owners of either existing affordable rental developments, or developers of proposed new affordable multifamily rental developments, seeking funding from DOH that are also interested in creating housing for individuals with intellectual disabilities or individuals with autism. This multi-agency effort is called the Intellectual Disabilities and Autism Spectrum Disorder Housing (IDASH) Program.

Approximately \$20 million in capital funding is anticipated to be made available for IDASH. Capital funding available may, at DOH's discretion, include bond proceeds authorized through PA 16-4, the Housing Trust Fund Program funds, Affordable Housing Program funds, federal HOME Investment Partnership Program funds, and/or other available sources.

DDS funding may provide case management to individuals with developmental disabilities on one of three ID/DD Waivers. #### Background

Beginning in FY 12, the Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) User Fee is assessed by, and paid to, the Department of Revenue Services from the DDS Supplemental Payments for Medical Services account. DSS claims revenue on the DDS payments. The agency's Campus ICF/IID settings are comprised of Southbury Training School (STS) and the regional centers. #### Background

The Department of Energy and Environmental Protection's (DEEP) Municipal Stormwater 4 (MS4) permit is the agency's "General Permit for the Discharge of Stormwater from Small Municipal Separate Storm Sewer Systems". The purpose of the MS4 permit is to protect state waters from stormwater runoff through municipal sewer systems. The permit requires each covered municipality (121 in total) to take certain steps to keep the stormwater that enters its storm sewer systems clean before it enters water bodies. These steps include such things as public education and outreach, elimination of illicit discharges, construction site runoff control, and monitoring. DEEP issued the permit on January 20, 2016 and it took effect July 1, 2017. It expires on June 30, 2022. DEEP developed its stormwater general permit program pursuant to authority under the U.S. Environmental Protection Agency's Stormwater Rule.

#### Background

The Medicare Savings Program (MSP) is a Medicaid-funded program that helps Medicare recipients with income up to 246% of the federal poverty level (FPL). Connecticut does not currently have an asset test. The federal minimum asset test is currently \$7,730 for singles and \$11,600 for couples and applies to money in a checking or savings account, stocks and bonds. An individual's home, one car, a burial plot, up to \$1,500 in a burial account, and household and personal items are excluded.

#### Governor

Provide funding of \$122,400 in FY 20 and \$530,600 in FY 21 in the Personal Services account to support nine positions to assist with ongoing asset verification requirements. Provide funding of \$2,670,000 in FY 20 and \$1,310,000 in FY 21 in the Other Expenses account to support IT upgrades for an asset verification system under ImpaCT and other contract costs.

Reduce funding by \$10.5 million in FY 21 (\$21 million gross) in the Medicaid account to reflect implementing an asset test at the federal minimum, effective July 1, 2020. The savings reflects the current cost of deductibles, coinsurance and copayments for those with income up to 211% FPL. In addition, less federal grants revenue will need to be diverted to cover the costs of premiums, resulting in additional revenue of \$16 million in FY 21. After considering the administrative costs, Medicaid savings, and federal grants revenue impact, the net savings to the budget is \$25.6 million in FY 21.

#### Committee

Do not implement an asset test for the Medicare Savings Program.

Personal Services expenditures will receive 50% federal reimbursement under Medicaid.

Reduce funding by \$6,420,000 in FY 20 and \$7,330,000 in FY 21 in the Medicaid account to reflect the savings associated with investing in quality assurance and revenue unit staff to audit and investigate Medicaid related expenses. #### Background

The State of Connecticut on behalf of its Medicaid program is part of a multi-state consortium called TOP\$, wherein Connecticut collaborates with other states (Idaho, Louisiana, Maryland, Nebraska, Wisconsin and Washington) to pool resources to develop and negotiate drug rebate agreements with pharmaceutical manufacturers. In FY 18, drug rebates offset Medicaid pharmacy expenditures of \$1.3 billion by \$875 million.

#### Governor

Reduce Medicaid funding by \$3.5 million in FY 21 to reflect the state's share of savings in the Medicaid pharmacy benefit resulting from participation in additional pharmacy purchasing pools. The total gross savings is approximately \$8.8 million after factoring in the federal share.

#### Committee

Reduce Medicaid funding by \$5.2 million in FY 21 to reflect the state's share of savings in the Medicaid pharmacy benefit resulting from participation in additional or other pharmacy purchasing pools. The total gross savings is approximately \$13.2 million after factoring in the federal share.

#### Background

Currently claims for diabetic test strips and lancets are processed at the pharmacy point of sale (POS) for those under the age of 21 and through the durable medical equipment (DME) benefit for those age 21 and over. The Governor's Budget proposes processing all diabetic supplies, including diabetic test strips and lancets, at the pharmacy POS and requiring that they be subject to a special type of Medicaid preferred drug list (PDL). In order for a manufacturer's product to be included on Medicaid's PDL the manufacturer must agree to pay a supplemental rebate to the state.

#### Governor

Provide funding of \$500,000 in FY 20 and \$200,000 in FY 21 in the Other Expenses account to reflect contractual expenses related to the administration of the diabetic supply program. Reduce funding by \$300,000 in FY 20 and \$1,190,000 in FY 21 in the Medicaid account to reflect Medicaid pharmacy and DME savings. #### Background

The Governor's Budget proposes utilizing the state's Medicaid Administrative Services Organization (ASO) to contract with an administrator of a Diabetes Prevention Program (DPP). The DPP is an evidence-based model recognized by the Centers for Disease Control (CDC), which has proven to reduce an individual's risk of developing type 2 diabetes through weight loss and exercise. The program utilizes a CDC approved curriculum which includes lifestyle coaching, exercise, self-monitoring, maintaining healthy behaviors and handling psychological and social stressors. The Medicaid program currently has approximately 40,000 individuals who are identified as prediabetic. The per-member-per-month (PMPM) gross cost of a Medicaid beneficiary is approximately \$770, prediabetic member PMPM is \$960 and diabetic member PMPM is \$2,020. The annual cost per enrollee in the DPP is approximately \$420. The proposal assumes approximately 4-5% of those eligible will participate in the program.

#### Governor

Provide funding of \$70,000 in FY 20 and reduce funding by \$520,000 in FY 21 to reflect the implementation of a DPP for prediabetic Medicaid beneficiaries. After factoring in the federal share, the net state cost in FY 20 is \$180,000, with savings of \$1.3 million in FY 21.

### Restore Reduction in Hospital Inpatient Reimbursement

<b>Total - General Fund</b>	<b>59,100,000</b>	<b>61,800,000</b>	<b>59,100,000</b>	<b>61,800,000</b>	<b>-</b>	<b>-</b>

#### Background

Connecticut uses the 3M All Patient Refined Diagnosis Related Groups (APR-DRG) grouper method as the weighting for inpatient rate changes under Medicaid. DRGs are assigned by a "grouper" program based on diagnoses, procedures, age, sex, discharge status, and the presence of complications or co-morbidities. Codes associated with a patient (diagnosis, surgical procedures, age, etc.) are compiled and the information is run through an algorithm to determine its weight, which is then applied to the hospital's base rate. DSS' Medicaid state plan (SPA 17-0011) requires that the department use the current version of the 3M grouper as the basis for weighting rates. 3M's latest version of the grouper, however, substantially reduced the weighting for Medicaid costs as a result of the transition to the latest International Classification of Diseases (ICD) (i.e., moving from ICD-9 to ICD-10), which has a much more detailed level of coding for providers to bill. This resulted in a significant reduction to Medicaid inpatient hospital payments starting midyear in FY 19; after factoring in expenditures for non-DRG based services, the overall reduction in payments for hospital inpatient services is estimated at approximately 16.8%, or over \$170 million when fully annualized.

#### Governor

Provide funding of \$59.1 million in FY 20 and \$61.8 million in FY 21 to reflect restoring Medicaid hospital inpatient reimbursement reductions resulting from 3M's latest grouper. After factoring in the federal share, the total cost is approximately \$171.1 million in FY 20 and \$177.2 million in FY 21.

### Adjust Hospital Supplemental Payments

Hospital Supplemental Payments	286,831,102	286,831,102	286,831,102	286,831,102	-	-
<b>Total - General Fund</b>	<b>286,831,102</b>	<b>286,831,102</b>	<b>286,831,102</b>	<b>286,831,102</b>	<b>-</b>	<b>-</b>

#### Background

Pursuant to PA 17-4 JSS, DSS in consultation with the Connecticut Hospital Association and contingent on approval from the Centers for Medicare and Medicaid Services (CMS), is required to establish at least four hospital Medicaid supplemental payment pools: an inpatient pool, an outpatient pool, a small hospital pool and a mid-size hospital pool. PA 17-4 JSS provided funding of approximately \$598 million in FY 18 and \$496 million in FY 19 for Medicaid hospital supplemental payments. Section 55 of PA 18-81 provided Medicaid hospital supplemental payments of \$166.5 million in FY 20.

The federal upper payment limit (UPL) is the maximum amount a state Medicaid program may pay a given provider type in the aggregate and can vary each year as it is based on what Medicare would have paid for the same services; payments in excess of the UPL are not eligible for federal reimbursement.

#### Governor

Provide funding of \$286,831,102 in FY 20 and FY 21 in the Hospital Supplemental Payment account to provide Medicaid hospital supplemental payments of approximately \$453 million in FY 20 and FY 21. This is inclusive of a (1) a \$3 million reduction in the small hospital pool to reflect the FY 19 reduction related to the merger of Charlotte Hungerford Hospital with Hartford Healthcare and (2) a \$40 million reduction compared to FY 19 related to the federal UPL to ensure all payments are eligible for federal reimbursement. The combination of these actions (1) providing funding for hospital supplemental payments (\$326.8 million) and (2) reducing hospital supplemental payments due to the federal UPL (\$40 million) result in a net impact to federal grants revenue of approximately \$188.7 million in FY 20 and \$187.3 million in FY 21 (approximately \$214 to \$215 million in increased federal grant revenue related to increased supplemental payments and a reduction of \$26.7 million related to the UPL).

Nursing homes with high occupancy and high quality measures will be provided a stop loss of 2% if applicable. #### Background

The Money Follows the Person (MFP) rebalancing demonstration is a federal initiative that encourages states to reduce their reliance on institutional care for Medicaid recipients by transitioning individuals out of institutional settings and into community settings with appropriate supports.

#### Governor

Provide funding of \$726,400 in FY 20 and FY 21 in the Personal Services account to support seven positions to increase the agency's capacity to process MFP applications within a tighter timeframe. Provide funding of \$800,000 in FY 20 and \$500,000 in FY 21 in the Other Expenses account to assist with developing a predictive modeling tool to identify older adults who are discharged from hospitals to nursing homes and who are at high risk for a long-term stay without intervention and fund specialized support staff to assist with certain referrals.

Reduce funding by \$480,000 in FY 20 and \$4,470,000 in FY 21 in the Medicaid account to reflect a reduction in Medicaid expenses related to supporting more MFP transitions. After factoring in the federal share, this proposal will reduce total Medicaid expenditures by \$1.0 million in FY 20 and \$9.5 million in FY 21. Funding is also included in the Department of Housing to support this effort.

#### Background

Connecticut was selected to participate in the Medicaid-Housing Partnership Innovation Accelerator Program (IAP) in 2016. The initiative provided technical assistance to the state to help design ways to support individuals served by Medicaid in accessing and retaining stable housing and meaningfully engaging with their health goals.

#### Governor

Reduce funding by \$580,000 in FY 20 and \$3,080,000 in FY 21 to reflect Medicaid savings associated with a new supportive housing benefit for high cost high need individuals. Under this proposal, the Department of Social Services (DSS) will develop a 1915(i) state plan amendment for a home and community-based services benefit to serve up to 850 individuals who experience homelessness and whose average Medicaid costs exceed \$40,000 per year. By providing stable housing and tenancy-sustaining wraparound services, this initiative is expected to allow participants to effectively access and engage with goals and action steps around their health, resulting in a 40% reduction in DSS Medicaid costs. After factoring in the federal share, this proposal is expected to reduce total Medicaid expenditures by \$2.7 million in FY 20 and \$13.9 million in FY 21. Funding is also included in the Department of Housing to support this effort.

#### Background

In January 2017, DSS began the Person-Centered Medical Home Plus or PCMH+ program. PCMH+ provides person-centered, comprehensive and coordinated care for Medicaid beneficiaries. Participating Federally Qualified Health Centers (FQHCs) and advanced networks such as accountable care organizations provide care coordination activities to improve the quality, efficiency, and effectiveness of care delivered to Medicaid beneficiaries. Shared savings payments as well as add-on quality payments are provided to participating entities who achieve the quality outcome measures required of the program as well as primary care case management services.

#### Governor

Provide funding of \$750,000 in FY 21 for consultant services to assist in the expansion of the PCMH+ program to approximately 70,000 dually-eligible (Medicaid and Medicare eligible) beneficiaries by January 1, 2023. ### Background

DSS Medicaid program provides remedial, preventive, and long-term medical care for income eligible aged, blind or disabled individuals (HUSKY C), low-income adults (HUSKY D) and families with children (HUSKY A). Payment is made directly to health care providers, by the department, for services delivered to eligible individuals. Medicaid services individuals across the HUSKY Health programs as follows: 450,000 individuals in HUSKY A, 94,000 in HUSKY C, and 240,000 in HUSKY D. The program complies with federal Medicaid law (Title XIX of the Social Security Act) and regulations.

HUSKY program expenditures typically receive 65% federal reimbursement. From October 1, 2015 through September 30, 2019, the reimbursement rate is increased to 88% and 76.5% for the period October 1, 2019 through September 30, 2020.

**Background**

State Supplemental programs consist of Old Age Assistance, Aid to the Blind, Aid to the Disabled. These programs provide monthly financial assistance to low-income individuals. These programs are entirely state funded, but operate under both state and federal guidelines. In order to receive benefits, an individual must have another source of income to supplement, such as federal Social Security, Supplemental Security Income, or Veteran's Benefits. All recipients are automatically eligible for health care benefits under the state's Medicaid program. In FY 18, the number of unduplicated paid cases averaged 8,200 per month under Aid to the Disabled, 3,500 under Old Age Assistance, and 40 under Aid to the Blind.

**Governor**

Provide net funding of \$32,525 in FY 20 and \$1,138,425 in FY 21 to reflect current expenditure requirements under Old Age Assistance, and the Aid to the Disabled and Blind line items.

**Background**

The state-funded Connecticut Home Care Program for Elders (CHCPE) provides home and community-based services to elderly who are at risk of nursing home placement and meet the program's financial eligibility criteria. Category 1 is targeted to individuals who are at risk of hospitalization or short-term nursing facility placement if preventive home care services are not provided. Category 2 is targeted to individuals who are frail enough to require nursing facility care, but have resources that would prevent them from qualifying for Medicaid upon admission to a nursing facility. In FY 18 the average number of state-funded clients per month was approximately 3,000 and is projected to decrease to a monthly average of 2,600 in FY 19.

**Governor**

Reduce funding by \$7,540,000 in FY 20 and \$7,450,000 in FY 21 to reflect current expenditure requirements under the Connecticut Home Care Program line item.

The TFA program limits assistance to 21 months for non-exempt cases, with possible six month extensions for good cause. Individuals in the TFA program are usually eligible for health care services provided under the state's Medicaid program. The average monthly caseload under this (and its predecessor) program has declined from over 60,000 families in FY 95 to approximately 12,800 in FY 18 with an average cost per case of \$483. For December 2018, the number of paid cases totaled 11,116 with an average cost per case of \$485.

Based on data through December 2018, the number of unduplicated paid cases averaged approximately 6,900.

**Background**

The Protective Services for the Elderly Program is designed to safeguard people 60 years and older from physical, mental and emotional abuse, neglect and abandonment and/or financial abuse and exploitation. The Department of Social Services' social workers devise a plan of care aimed at assuring an elder's safety while preserving the person's right of self-determination. Staff may help the person remain in the living situation he or she prefers, safeguard legal rights, prevent bodily injury or harm, determine service needs and then mobilize resources to provide necessary services. #### Background

The Medicare Part D clawback payment is the monthly cost-sharing payment to the federal government for the Medicare Part D prescription drug program for dually-eligible beneficiaries. A state's monthly clawback amount is calculated by multiplying its monthly Part D dual-eligible enrollment by CMS's estimate of the state's share of its per capita expenditure (PCE) for Medicaid covered drugs for dual-eligible persons. Part D expenditures have increased in recent years with the availability of new specialty drugs (such as those for Hepatitis C), growth in prescription drug utilization, and rising drug prices overall.

### Suspend Rate Increases for Private, In-State Residential Treatment Centers (RTCs)

#### Background

Pursuant to CGS Sec. 17a-17 and agency regulations, DCF's Single Cost Accounting System (SCAS) determines the per diem payment rates for private, in-state residential treatment centers. Under SCAS, increases in the allowable residential care components over the previous year's rates are limited to: (A.) the increase in the consumer price index plus 2%, or (B.) the actual increase in allowable costs - whichever is less. SCAS rate increases have been suspended in every biennial budget since FY 04.

#### Governor

Eliminate funding of \$3,399,170 in FY 20 and \$4,529,676 in FY 21 to reflect the suspension of SCAS per diem rate increases for in-state, private residential treatment centers.

#### Background

YSB services may include: individual and group counseling, parent training and family therapy, work placement and employment counseling, alternative and special educational opportunities, teen pregnancy services, suspension and expulsion services, diversion from the juvenile justice system, and preventive programs (e.g., youth pregnancy, youth suicide, violence, alcohol, and drug prevention).

Per CGS Sec. 10-19o, the State Department of Education (SDE) annually awards YSB grants, within available Youth Service Bureaus account appropriations. In order for a YSB to receive the full amount of the grant, a town must contribute an amount equal to the amount of the grant. A town must provide not less than 50% of its contribution from the funds appropriated by the town for that purpose, and the remaining amount in other funds or in-kind contributions, in accordance with regulations adopted by SDE. Any funds remaining in the account due to a town's failure to match funds are redistributed to the YSBs that met their match requirements. SDE is authorized by CGS Sec. 10-19o to expend an amount not to exceed 2% of the amount appropriated for this grant for administrative expenses. (Per CGS Sec. 10-19p, SDE provides grant management services, program monitoring, program evaluation and technical assistance to state-aided YSBs.)

See the write-up entitled, *Expand Youth Service Bureau Enhancement Grants*, for background on this grant program.

#### Committee

Transfer funding of \$2,626,772 supporting YSB grants, and funding of \$593,973 supporting YSB enhancement grants, from SDE to DCF in both FY 20 and FY 21.

This funding includes \$19,000 in both FY 20 and FY 21 (\$14,000 in the YSB account and \$5,000 in the YSB enhancement account) to support a new YSB in Thompson. It also includes funding of \$19,286 in FY 20 and FY 21 (\$14,286 in the YSB account and \$5,000 in the YSB enhancement account) to support a new YSB in East Windsor.

<b>Total - General Fund</b>	-	-	<b>500,000</b>	<b>500,000</b>	<b>500,000</b>	<b>500,000</b>

#### Background

Per CGS Sec. 10-19q, the State Department of Education annually awards Youth Service Bureau (YSB) Enhancement grants in the amounts of:

1. \$3,300 to YSBs that serve a town with a population of not more than 8,000 or towns with a total combined population of not more than 8,000.
2. \$5,000 to YSBs that serve a town with a population greater than 8,000, but not more than 17,000 or towns with a total combined population greater than 8,000, but not more than 17,000.
3. \$6,250 to YSBs that serve a town with population greater than 17,000, but not more than 30,000 or towns with a total combined population greater than 17,000, but not more than 30,000.
4. \$7,550 to YSBs that serve a town with a population greater than 30,000, but not more than 100,000 or towns with a total combined population greater than 30,000, but not more than 100,000.
5. \$10,000 to YSBs that serve a town with a population greater than 100,000 or towns with a total combined population greater than one 100,000.

Grants payable to YSBs are reduced proportionately if the total of such grants in a year exceeds the amount appropriated for the Youth Service Bureau Enhancement account in that year.

#### Committee

Provide funding of \$500,000 in both FY 20 and FY 21 to expand Youth Service Bureau Enhancement grants.

#### Background

Private transportation services are currently provided to the agency through two main sources: Local Education Authority (LEA) contracted providers and DCF credentialed providers. Averaging three methods of rate setting: (1) the LEA flat rate, (2) the LEA rate per mile, and (3) the credentialed transportation provider rate, results in an average cost of approximately \$80 per hour for private provider transportation. DCF's private provider transportation expenditures totaled approximately \$12.7 million in FY 18.

Account	Governor Recommended		Committee		Difference from Governor	
	FY 20	FY 21	FY 20	FY 21	FY 20	FY 21

### Governor

Reduce funding by a net \$1,641,450 in FY 20 and a net \$3,283,001 in FY 21 from the establishment of a Central Transportation Unit (CTU) within DCF. The CTU is anticipated to reduce agency expenditures overall by decreasing the need for transportation services from private vendors (find these savings in the Board and Care account funding reductions) and from decreased Social Worker transportation-related overtime. These savings can be found within the net Personal Services account (PS) funding. After including fringe benefit costs of \$665,161 in FY 20 and \$1,402,921 in FY 21 (supported within the Office of the State Comptroller), the anticipated net State fiscal impact from the establishment of the CTU is a net savings of \$976,340 in FY 20 and \$2,029,980 in FY 21.

Net PS funding of \$119,000 in FY 20 and \$237,999 in FY 21 reflects support of \$1,404,713 in FY 20 and \$2,809,425 in FY 21 for 66 new positions: 60 Maintainers (a.k.a "the drivers"), three Maintenance Supervisory II positions, and three Office Assistants. Anticipated Social Worker transportation-related overtime savings are \$1,285,713 in FY 20 and \$2,571,426 in FY 21. Other Expenses account funding of \$345,500 in FY 20 and \$541,100 in FY 21 reflects the cost for 60 vehicle leases from the Department of Administrative Services, dispatch software licenses, and gasoline. While DCF is currently projecting the need to lease 60 more vehicles, the final decision on the number of leases will be made after dispatching software is implemented and vehicle usage of the entire DCF Fleet is analyzed. The Department has approximately 600 vehicles in its current Fleet and will be able to reduce any unneeded vehicles through normal attrition.

### Provide Funding for Juvenile Review Boards (JRBs)

### Background

PA 17-2 JSS consolidated juvenile justice services for delinquent children and youth under the Court Support Services Division (CSSD) of the Judicial Branch. The FY 18 and FY 19 Biennial Budget partially transferred Department of Children and Families (DCF) juvenile justice funding to CSSD. This transfer included: (1) the entirety of the DCF Juvenile Justice Outreach Services account and its associated funding of approximately \$5.6 million in FY 18 (half-year) and \$11.1 million in FY 19 (full-year), and (2) Board and Care for Children - Short-term and Residential account funding of \$3.3 million in FY 18 (half-year) and \$6.6 million in FY 19 (full-year). The total amount of funding transferred from DCF to CSSD in the FY 18 and FY 19 Biennial Budget was \$8.9 million in FY 18 and \$17.7 million in FY 19. Additional funding of approximately \$15.5 million in each fiscal year supporting the now-closed Connecticut Juvenile Training School (CJTS) was not transferred from DCF to CSSD. CJTS stopped taking new admissions on 1/1/18, and the last youth left the facility on 4/11/18. Also remaining with DCF was funding supporting Juvenile Justice Social Workers totaling \$3.6 million in each fiscal year. See the Current Services write-up entitled *Adjust Funding and Positions Related to Juvenile Justice Consolidation* for a related budget adjustment in FY 20 and FY 21, which eliminates remaining Personal Services account funding that is still available and reduces DCF's authorized position count.

The DCF Juvenile Justice Outreach Services account supported a variety of juvenile justice related programs for children, youth, and their families including Juvenile Review Boards (JRBs). DCF JRB expenditures were approximately \$1.3 million in FY 16, \$1.2 in FY 17, and \$1.3 million in FY 18. This funding supported the City of Hartford's JRB, the New Haven Family Alliance, the Regional Youth/Adult Substance Abuse Program, Inc. in Bridgeport, the Connecticut Youth Services Association, and Waterbury Youth Services. Funding for JRBs was not provided by CSSD's Juvenile Justice Outreach Services account in FY 19. The Office of Policy and Management leveraged federal funds to support JRBs through 8/31/19, after which federal funding will no longer be available for this purpose.

### Background

DCF is responsible for paying for court-ordered psychological evaluations of child custody participants, including the adults. Prior to FY 09, the agency contracted with a third party for quality assurance activities associated with these evaluations. The third party charged 8% of the payments it managed. With third party oversight, the average, annual cost for these evaluations was \$325,000. In the first year with only partial oversight, FY 09, costs increased to \$524,234. DCF spent \$2.1 million on these evaluations in FY 18.

**Background**

The Department of Housing (DOH) Rental Assistance Program (RAP) is a state-funded program which assists low-income families to afford decent and safe housing in the private market.

**Committee**

Reduce funding by \$800,000 in both FY 20 and FY 21 to reflect *Board and Care for Children - Foster* account savings to be achieved through the reunification of families currently separated due to inadequate housing. Savings are anticipated related to an expansion of DOH housing RAPs. Funding of \$1 million in both fiscal years is provided to DOH in concert with this change, to support housing RAPs for families with children in the care and custody of DCF that are seeking to be reunified with their children.

**Background**

The Differential Response System (DRS) is a way of responding to low-risk reports of abuse and/or neglect that differs from the traditional child protective investigations model. DRS works to understand the family issues that lie beneath a maltreatment report. It utilizes a non-adversarial approach to engage parents and connect them with the services that best address their specific needs. Children and families who have been offered intensive care coordination have an increased level of stability, reducing the likelihood of future involvement with the department.

**Governor**

Provide net funding of \$244,306 in FY 20 and reduce net funding by \$1,587,122 in FY 21 to reflect enhanced care coordination for families that have come to the attention of DCF. Families will be assessed for the appropriate level of care, referred to appropriate services, and followed-up with to ensure that these services are producing the desired outcomes. Program costs are offset by personnel savings achieved through the elimination of 120 social worker positions.

**Background**

DCF may provide, on a voluntary basis (at the request of the family), casework, community referrals and treatment services for children who are not committed to the department. The Voluntary Services program is for children and youth with serious emotional disturbances, mental illnesses, and/or substance dependency. This program is only for families who are not abusive or neglectful.

**Governor**

Reduce funding by net \$61,291 in FY 20 and a net \$292,465 in FY 21. This reflects the provision of funding under the Community KidCare account for targeted case management services of \$592,910 in FY 20 and \$445,227 in FY 21. It also includes a reduction in Personal Services account funding of \$624,201 in FY 20 and \$797,692 in FY 21, and the elimination of 10 social worker positions, to reflect savings anticipated from the procurement of case management services for families involved in the Voluntary Services Program.

See the **Background** of the Policy Revisions write-up entitled *Provide Funding for Juvenile Review Boards (JRBs)* for information related to the associated transfer of funding from DCF to CSSD.

The DCF Juvenile Justice Outreach Services account supported a variety of juvenile justice related programs for children, youth, and their families. These included: JRBs, the Fostering Responsibility, Education, and Employment program (FREE), Multi-Dimensional Family Therapy - Family Substance Abuse Treatments Services, Multisystemic Therapy for Transition Age Youth, intermediate evaluations, employment programs (e.g., Work to Learn), and Functional Family Therapy.

### Background

Pursuant to CGS Sec. 17a-17 and agency regulations, DCF's Single Cost Accounting System (SCAS) determines the per diem payment rates for private, in-state residential treatment centers. Under SCAS, increases in the allowable residential care components over the

previous year's rates are limited to: (A.) the increase in the consumer price index plus 2%, or (B.) the actual increase in allowable costs - whichever is less. SCAS rate increases have been suspended in every biennial budget since FY 04.

#### Governor

Provide funding of \$3,399,170 in FY 20 and \$4,529,676 in FY 21 to reflect SCAS rate increases for private, in-state residential treatment centers. ### Provide Funding to Implement ECS According to Current Law

#### Background

Under current law, ECS funding is scheduled to increase as full funding is phased in through FY 28. Towns that are considered over-funded under the formula are scheduled to have ECS grant reductions annually through FY 28, while towns that are under-funded under the formula are scheduled to have ECS grant increases annually through FY 28.

One component of the ECS formula calculation is a town's number of low-income students. Under current law, the low-income measure is the number of Free and Reduced Price Lunch students.

#### Committee

Increase funding by \$37,552,615 in FY 20 and \$78,005,293 in FY 21 to fund ECS grants under the current law, including the statutory phase-in and phase-out schedule as well as Free and Reduced Price Lunch students as the low-income measure.

#### Background

Various formulaic grants are established within statute, and these same grants can also be capped in statute. If the grants are capped, funding is distributed based on a proration of the anticipated formula. In FY 03, various grants administered by the State Department of Education were capped. For FY 09 the caps were lifted, which resulted in higher grant payments to some municipalities. However, since FY 10 the grants have been capped.

**Background**

In FY 19, Education Cost Sharing (ECS) grants totaled \$2,016,728,682, consisting of \$2,013,828,619 in ECS formula funding and approximately \$2.9 million in grants to districts that hosted hurricane-displaced students during FY 18. Under current law, ECS funding is scheduled to increase as full funding is phased in through FY 28.

**Governor**

Reduce funding by \$38,771,318 in FY 20 and \$77,471,318 in FY 21 to fund the ECS grant at FY 19 levels.

**Committee**

Do not change the ECS formula; do not fund at the FY 19 level.

**Background**

Under current law, ECS funding is scheduled to increase as full funding is phased in through FY 28. Towns that in FY 17 received a higher ECS grant than current full funding amounts are considered over-funded under the formula, and are scheduled to have ECS grant reductions through FY 28. For FY 20 through FY 27, the annual grant reduction is equal to 8.33 percent of the difference between the FY 17 grant and the full funding amount, and full funding is reached in FY 28. Towns that in FY 17 received a lower ECS grant than current full funding amounts are considered under-funded under the formula, and are scheduled to have ECS grant increases through FY 28. For FY 20 through FY 27, the annual grant increase is equal to 10.66 percent of the difference between the FY 17 grant and the full funding amount, and full funding is reached in FY 28.

One component of the ECS formula calculation is a town's number of low-income students. Under current law, the low-income measure is the number of Free and Reduced Price Lunch students.

**Governor**

Increase funding by \$20,583,304 in FY 20 and \$42,321,957 in FY 21 to: (1) reflect ECS grant increases to under-funded towns as in current law, (2) accelerate the ECS grant reductions to over-funded towns, by annually reducing grants to these towns by 25 percent of the difference (instead of 8.33 percent) between the FY 17 grant and the full funding amount, (3) change the low-income student measure used in the ECS formula to the number of students directly certified for Free Lunch through participation in certain need-based government programs or homelessness, which reduces the number of low-income students counted in the formula, and (4) update student and town data. Governor's Bill 7150 implements these changes.

**Committee**

Do not change the ECS formula.

#### Background

Approximately 75,000 Connecticut children attend nonpublic elementary and secondary schools. These children are entitled by law to the same health services that are provided to public school children in their towns as long as the majority of the school's enrollment resides in Connecticut. The eligible services are limited to those of a school physician, school nurse and/or dental hygienist. Towns are reimbursed in the subsequent year for 10 to 90 percent of the cost of providing eligible services. Town wealth is the primary factor in establishing each town's reimbursement percentage. For districts whose percentage of TFA (Temporary Family Assistance) population exceeds 1 percent their reimbursement cannot be less than 80 percent. Payment is made by January 15 of each year.

#### Governor

Reduce funding by \$3,438,415 in both FY 20 and FY 21, to reflect the elimination of the program. Funding will be provided by the school receiving the services.

#### Background

- Other Expenses is an appropriation that funds operating expenses for an agency. It includes funding for contractual services (compensation for services procured by contract), commodities (supplies, materials, and equipment not normally regarded as capital items), and sundry charges (expenditures not properly assignable to other standard accounts).
- LEAP - The Leadership, Education, and Athletics in Partnership (LEAP) Program is a model mentoring program which matches children, ages 7 to 14, from high poverty urban neighborhoods in the City of New Haven with trained high school and college student counselors. LEAP provides programs and services to help children develop their academic skills, self-esteem, improve their ability to succeed in school, and to be involved in their community. LEAP also provides its college and high school counselors with opportunities to teach and mentor children, and offers them training and other experiences to develop their leadership skills and refine their career goals.

- Bridges to Success provides funding to support at risk high school students to successfully transition to college.

Teenage mothers and fathers have unique educational needs and the babies of young parents are at risk of handicaps, health disorders and developmental delays. This program allows teen parents to complete their high school education while their babies receive quality child care. The state allocations are matched by local funding.

Reduce funding for Care4Kids by \$67,982,218 in FY 20 and \$53,626,128 in FY 21 to reflect only the state share of program funding in the General Fund line item. A similar adjustment is made to Federal Grants revenue to reflect reallocating federal Child Care Development Funds (CCDF), which support Care4Kids, to a separate federal account. While this change does not impact the overall funding for Care4Kids, it is a change from current practice to reflect only the state share of program funding in the budget.

**Committee**

Same as Governor. OEC is required to submit quarterly reports to the Committees on Appropriations and Education detailing the federal CCDF allocation, expenditures to date, estimated expenditures through the end of the fiscal year, and anticipated use of any balance of funds. In addition, OEC will detail overall Care4Kids program data (supported by both state and federal funds) including actual and estimated monthly caseload and associated costs by priority group.

#### Background

The Child Care Development Fund (CCDF) program is administered by the Office of Child Care under the U.S Department of Health and Human Services. The CCDF is a state-federal program primarily used to provide financial assistance to low-income families for child care. Connecticut uses the federal funds to support the Care4Kids program. While the state typically receives approximately \$53 million under CCDF, this amount was increased by \$14.3 million in FY 18 and FY 19. This increase is anticipated to continue in FY 20.

#### Governor

Provide funding of \$14,356,090 to reflect increased CCDF funds in FY 20.

#### Background

The Birth to Three program provides early intervention services to infants and toddlers to address developmental and health related needs. The federal program for infants and toddlers with disabilities, Part C of the federal Individuals With Disabilities Education Act (IDEA), assists states with operating a comprehensive, statewide program.

#### Governor

Provide funding of \$375,319 in FY 20 and \$757,206 in FY 21 to reflect 1.7% growth in the Birth to Three program in each year.

#### Background

PA 17-2 JSS, the biennial budget act, realigned General Fund and federal block grant resources across several agencies to simplify administrative activities related to the provision of block grant funded services. This included transferring a portion (10%) of the Temporary Assistance to Needy Families (TANF) block grant to the federal Child Care Development Fund (CCDF). In OEC, the General Fund appropriation for the Early Care and Education line item was reduced while CCDF support for the program was increased. This transfer, like the one approved via the Finance Advisory Committee (FAC) in March 2018 and September 2018, allows Child Care Development Funds (CCDF) to support the Care4Kids program, which already follows CCDF rules, in lieu of Early Care and Education (child care centers) and licensing staff which do not follow CCDF guidelines and would require extensive changes for compliance purposes. Total CCDF support for child day care centers and licensure was budgeted at \$26,678,810 in FY 19.

#### Governor

Transfer funding of \$26,678,810 from the Care4Kids line item to Personal Services (\$666,791 to support licensing staff) and Early Care and Education (\$26,012,019 to support child day care centers) to reflect the current funding structure of the programs. Federal CCDF support will be reallocated from child day care centers and licensing to the Care4Kids program. This shift will have no net impact on the General Fund or federal revenue, and will not result in any reduction in services.

### Reduce Contribution to Reflect Changes to Funding Methodology and Benefit Design

#### Background

The Teachers' Retirement System (TRS) is the state's defined benefit plan for approximately 50,000 active and 37,000 retired teachers. TRS is currently funded using an actuarial reserve funding methodology, whereby the normal cost and past service liability are calculated in order to determine the state's annual required contribution (ARC). TRS is not collectively bargained but rather provided through statute (CGS 10-183b).

PA 17-2 JSS, the FY 18 - FY 19 Biennial Budget, increased teachers' pension contributions from 6% to 7% of their annual salary, effective January 2018 and required the Teachers' Retirement Board (TRB) for FY 20 and each fiscal year after, to assume that teachers' pension contributions are 6% instead of 7% when actuarially determining the ARC.

#### Governor

Reduce funding by \$183.4 million in FY 20 and \$189.4 million in FY 21 to reflect the net reduction in the TRS annual required contribution based on a revised 2018 valuation after the TRB's adoption of the proposed changes to funding methodology and benefit design. SB 873, *An Act Stabilizing the Teachers' Retirement Fund*, implements the proposed changes to the TRS which are outlined below:

#### Funding Methodology

- Reduce assumed rate of return from 8% to 6.9%.
- Re-amortize the unfunded liability over a new 30-year period.
- Transition from level percent of payroll to level dollar amortization over a 5-year period.
- Calculate the ARC based on the 7% member contribution.

- Change the percentage reduction to members' accounts as benefits are received from 25% to 50%.

**Establish Municipal Contribution to the TRS****Governor**

The Governor's Recommended Budget requires most municipalities to pay a phased-in contribution for at least one-quarter (25%) of the normal cost paid on its behalf by the state. This is anticipated to result in General Fund revenue of \$23.8 million in FY 20 and \$49.2 million in FY 21. The full 25% of normal cost contribution is required in FY 22, the third year of the phase-in, and is an estimated \$71.5 million. Municipalities with teacher salaries above the statewide median are required to pay a share equal to each percentage point they are above the median. Contributions by distressed municipalities are limited to five percent of their associated normal cost. HB 7150, *An Act Implementing the Governor's Budget Recommendations Concerning Education*, implements this change and requires municipalities to annually transmit the required amount to the Teachers' Retirement Board on or before December 31 each year.

**Committee**

The municipal contribution to the Teachers' Retirement System is not recommended.

Payment of the full contribution is required by both statute (CGS 10-183z) and the bond covenant for the pension obligation bonds, issued pursuant to PA 07-186.

**Background**

The Teachers' Retirement Board (TRB) is required to offer one or more health plans to retired Teachers' Retirement System members who are participating in Medicare. The TRB health plan is funded on a self-insured basis. CGS 10-183t provides a cost sharing arrangement which requires that retirees, the state, and the TRB health fund each pay one-third of the total cost for the basic plan. The TRB health fund is supported by active teachers' 1.25% contributions. PA 17-2 JSS, the FY 18 and FY 19 Biennial Budget, reduced the state share of the TRB health plan cost to the flat-funded FY 17 level of appropriation. This resulted in a state share of approximately 16% in FY 17 and anticipated share of 12% in FY 18. The TRB basic plan is changing from the Medicare Supplement Plan to a Medicare Advantage Plan administered by Anthem effective July 1, 2018. PA 18-81, the Revised FY 19 Budget, transferred \$16.1 million from the Budget Reserve Fund to the retired teachers' health insurance premium account. This transfer, when combined with the FY 19 appropriation in the retirees health service cost account reflects approximately one-third of the TRB retiree health basic plan estimated expenditure for FY 19.

**Background**

The municipal subsidy is provided to those retirees and dependents with health insurance through their last employing board of education. The amount that eligible retirees receive is statutorily set at \$110 per month for most members and \$220 per month for members who are 65 or older, not Medicare eligible and paying more than \$220 per month for health insurance. The state is required to pay one-third of the cost of the subsidy according to CGS 10-183t. PA 18-81, the Revised FY 19 Budget, transferred \$16.1 million from the Budget Reserve Fund to the retired teachers' health insurance fund. This service was previously provided by UConn Health (UCH) but the contract between UCH and DOC ended on June 30, 2018. This policy transfers the Workers' Compensation Claims amounts associated with the Correctional Managed Health Care workers to the DOC based on FY 18 expenditures.

**Background**

Annual UConn Health Workers' Compensation Claims costs (excluding inmate health) ranged between approximately \$4.3 million and \$4.9 million from FY 14 through FY 18. In FY 19, UConn Health has approximately \$5.5 million available to pay its Workers' Compensation Claims costs. In addition to appropriated funds, UConn Health draws upon \$3.2 million in other revenues to pay these costs. This adjustment reflects anticipated increased costs due to FY 20 and FY 21 wage increases as well as medical cost inflation.

**Governor**

Increase funding by \$336,766 in FY 20 and \$583,819 in FY 21, which results in total Workers' Compensation Claims funds available of \$5,870,431 in FY 20 and \$6,117,484 in FY 21 after accounting for the transfer to DOC of account funding associated with inmate healthcare.

### Background

The Board of Regents system office personnel are funded by a portion of the Connecticut State University, Community Tech College System, and Charter Oak State College accounts, as well as an appropriation to the Board of Regents account. In FY 19, system office personnel funding is projected to involve the contribution of approximately \$16.3 million in block grant funding to the Board of Regents constituent units, consisting of approximately \$12.1 million (nine percent of the block grant) from the state universities, \$4.1 million (three percent of the block grant) from the community colleges, and \$38,340 (one percent of the block grant) from Charter Oak State College.

### Committee

Transfer funding totaling \$17,086,249 in FY 20 and \$18,025,992 in FY 21 to the Board of Regents account from the Board of Regents constituent unit block grants to reflect the system office's funding from the block grants. These amounts reflect the transfer of the same percent of each block grant to system office personnel as in FY 19.

### Require Students First Reporting

#### Background

The Students First initiative, announced in April 2017, consists of: (1) administrative consolidation of the 12 community college into a single community college, (2) various administrative savings efforts, and (3) implementation of Guided Pathways, a framework to improve student retention and achievement. #### Committee

The Board of Regents shall report quarterly to the General Assembly's higher education and employment advancement committee, and to the Higher Education Consolidation Committee, beginning October 1, 2019 and until June 30, 2021, including for the preceding calendar quarter: (1) all personnel changes made for the purpose of implementing the administrative consolidation portion of Students First, and for each change the associated total annual personnel cost or savings anticipated, (2) a summary description of any meetings or activities conducted for Students First, and (3) copies of all written communication between the Board of Regents and the New England Commission of Higher Education.

#### Background

Based on projected decreases in the state's prison population, the budget includes savings related to the closure of: (1) two units at Northern Correctional Institute in Somers, (2) two cottage units at Manson Youth Institute in Cheshire, and (3) one building at Bridgeport Correctional Institute. The most recent prison closure occurred in January 2018 when the Enfield Correctional Institution closed.

**Background**

By increasing and maintaining a 90% filled master roster, The Department of Correction (DOC) can achieve savings through the reduction of overtime. The master roster is currently 86.8% filled and the DOC has 513 vacancies. However, taking into account staff on workers compensation and military leave, the department is 81.1% filled.

**Governor**

Personal Services is reduced by a net of \$5,243,122 in FY 20 and FY 21 as a result of a reduction in overtime costs by \$13,763,009 each year, which is partially offset by increased wage and salary costs of \$8,519,887 each year by hiring over 200 additional staff to fill current vacancies.
