#### II. Agenda Items

**Items #1 & 5:** Office of Policy and Management and Department of Transportation: Town Aid Road and Grants for Municipal Projects (\$85,000,000 combined in new GO bonds)

Town Aid Road is a statutory formula grant distributed to municipalities based on the amount of paved and unpaved road mileage in each town. Towns may use this funding for highway and bridge construction, improvement or maintenance, snow plowing, tree trimming and removal, installation and maintenance of traffic signs and signals, and for other traffic safety, planning, and administrative purposes.

Grants for Municipal Projects is a statutory formula grant distributed partially based on the amount of tax exempt manufacturing machinery and equipment in each town, and partially based on each town's property and income wealth. These grants can be used for the same purposes as Town Aid Road grants.

These allocations represent a portion of the total FY 19 grant. Of the \$60 million budgeted for Town Aid Road, \$30 million (of STO bonds) was allocated at the July 2018 bond commission meeting. Of the \$60 million budgeted for Grants for Municipal Projects, \$5 million was allocated at the December 2018 bond commission meeting.

See the table below for the estimated total FY 19 distribution of both grants.

# **Item #2** Department of Transportation: Capital Resurfacing and Related Reconstruction Projects (\$69,000,000 in new STO bonds)

These funds will be used to resurface approximately 221 lane miles through the Vendor-In-Place (VIP) program. The VIP program refers to a contract where the vendor supplies all materials, labor, and equipment to perform a complete work function in place. The most common example is DOT's VIP paving contract, where the vendor supplies the asphalt, paving equipment, trucking, and labor and the State pays for the services by the ton. These projects are usually not eligible for a federal match.
