

## 2015 BILL TRACKING REPORT

By: Alex Reger, Legislative Analyst II

Mary Fitzpatrick, Legislative Analyst I

### SUMMARY

This report lists the bills considered during the General Assembly's 2015 regular session and June Special Session whose provisions were enacted under another bill number.

The provisions of many bills that die in committee or on the calendar become law after the (1) original committee incorporates them in another bill that receives a favorable report or (2) concept is adopted as an amendment and incorporated in another bill. This report includes bills whose language may have changed in the final enactment from that of the original committee bill or file, but that represent the legislature's final action on the matter taken during the session.

During the session, the content or concept of 165 bills that started as separate legislation was later incorporated in other legislation that passed and became law. Table 1 lists the original bills in numeric order and shows the public act that included their provisions. Table 2 lists the bills by the committee of origin.
