	Sewerage	It is the recommendation of the sewerage subcommittee that there be the development of municipal plans with infrastructure intersections.	Oversight/ review of these plans by DEEP and DPH - COGs coordinating or potentially providing oversight									
	Sewerage	It is the recommendation of the sewerage subcommittee that there be better coordination between the DEEP and DPH.	State agency actions must be consistent with the State Plan of Conservation and Development (POCD) including the sewer extensions under the purview of DEEP and water extensions under DPH.									
	Sewerage	It is the recommendation of the sewerage subcommittee that there be better coordination between the DEEP and DPH.	Examine the rationale and clarify jurisdiction and enforcement authority over common ownership systems (7,500 gpd division)									
	Sewerage	It is the recommendation of the sewerage subcommittee that there be better coordination between the DEEP and DPH.	Evaluation of the adequacy of resources for oversight and enforcement of failed systems, review of water pollution control plans and new permits. Develop statewide database system for all agencies									
	Sewerage	It is the recommendation of the sewerage subcommittee that there be better coordination between municipal, state government and the COGs	Requiring water pollution control authorities to prepare and regularly update water pollution control plans at intervals to be determined									
	Sewerage	It is the recommendation of the sewerage subcommittee that there be better coordination between municipal, state government and the COGs	Adding wastewater systems to the required infrastructure identified in municipal plans of conservation and development									
	Sewerage	It is the recommendation of the sewerage subcommittee that there be better coordination between municipal, state government and the COGs	Requiring municipal plans of conservation and development and water pollution control plans to be consistent with the state POCD									
	Sewerage	It is the recommendation of the sewerage subcommittee that an education program for other treatment systems be explored and/or a testing and study center be implemented similar to those in Massachusetts and Rhode Island. The subcommittee doesn't deem it necessary, after consultation with DEEP and DPH, to test the viability, technology or systems. However, using perhaps the scientific expertise at UCONN or CASE or potentially partnering with another testing facility such as the one in Barnstable County could be valuable in developing a program for education or training opportunities in collaboration with our state agencies.										
	Model Codes	Provide funding to engage a consultant or multiple consultants to develop voluntary model code guidelines for municipalities.

	Model Codes	Enhance land use planning capacity at the state level and provide sufficient resources to better integrate statewide objectives and local land use decisions. The Office of Responsible Growth (ORG) within the Office of Policy and Management should develop support and incentives to help improve planning practice in Connecticut, including the adoption of model code guidelines by local governments.										
	Model Codes	Facilitate the incorporation of best practices into municipal regulation, standards, and processes. Adoption of best practices, such as model code guidelines, is a challenge in part because local regulation, standards, and processes vary significantly – few practices can be adopted without some legwork translating those practices into a local framework.										
	Model Codes	Improve coordination to support effective and efficient plan implementation										
	Affordable Housing Plans	Direct towns, in a specific timetable, to revise their 2021-2022 plans in light of the guidance stated in this report.										
	Affordable Housing Plans	Specify which board/agency/commission has the responsibility to approve and administer the plan.										
	Affordable Housing Plans	Consider adopting specific recommendations in this report as action steps and timetables.										
	Affordable Housing Plans	Require each updated report contain a checklist against the criteria stated in § VIII of this report.										
	Affordable Housing Plans	Require the Department of Housing to prepare and publish a model Affordability Plan, to demonstrate best practices for affordable housing administration. Topics could include how to handle capital improvements; comparability among units; determination of mortgage rates in affordable units for sale; utility cost calculations; and where to go online for median income and fair market rent data.
