

Report to the Quality & Access
Sub-Committee
November 16, 2007

UTILIZATION DATA

Riverview's impact on utilization
statistics

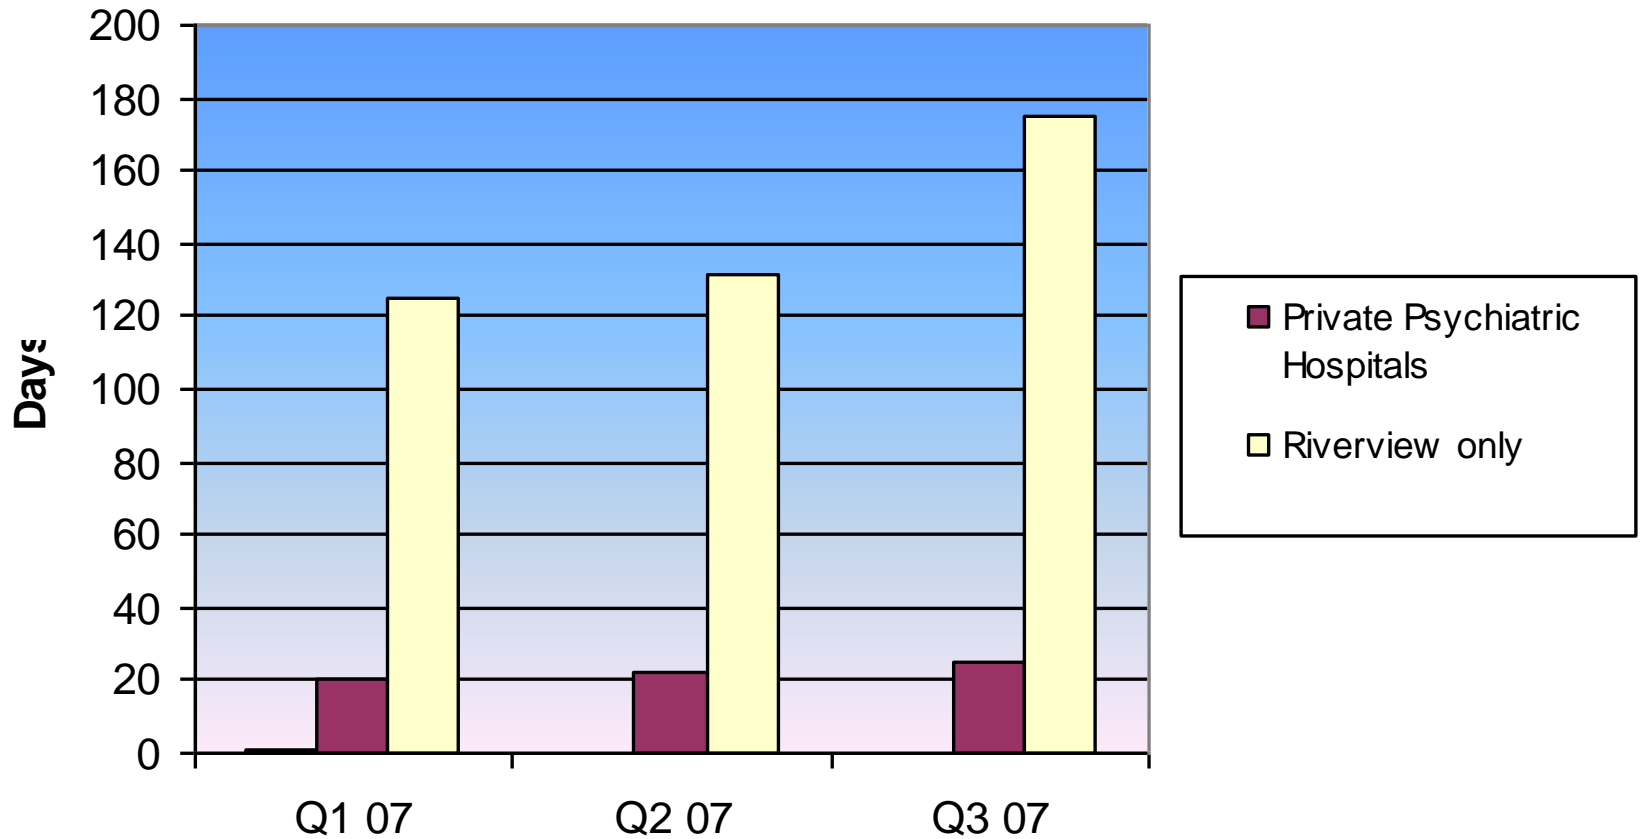

Count of Admissions for all Children (Age 0-18)

Average Length of Stay (ALOS)

Inpatient

All Children; Private Psychiatric Hospitals compared with Riverview

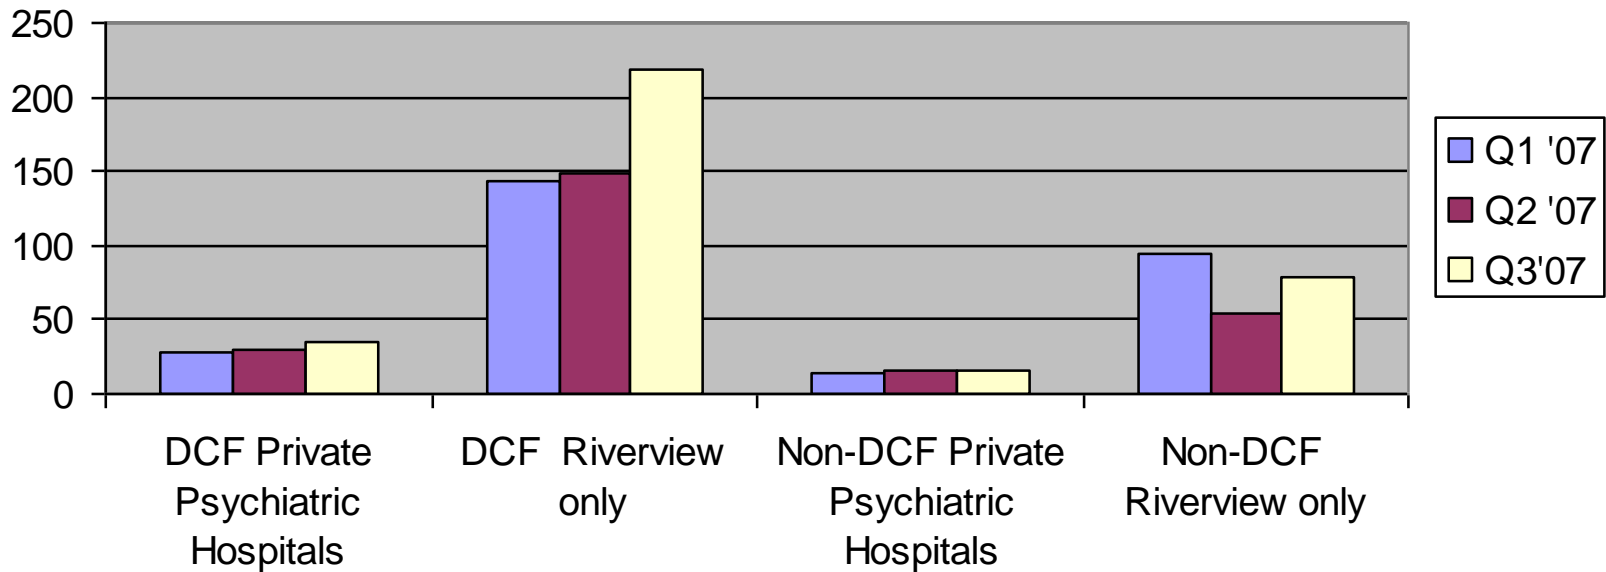

IMPACT OF RIVERVIEW DATA ON ALOS

- Number of discharges increased from 33 to 50 over past three quarters.
- As we move further from implementation, the TRUE ALOS of Riverview cases is increasingly inflating the overall ALOS
- Recommendation: Moving forward, remove Riverview ALOS from reports

Quarter	Range of LOS	# of Cases >200 days	# of Discharges
Q1 07	22-355	8	33
Q2 07	17-418	7	32
Q3 07	14-496	21	50

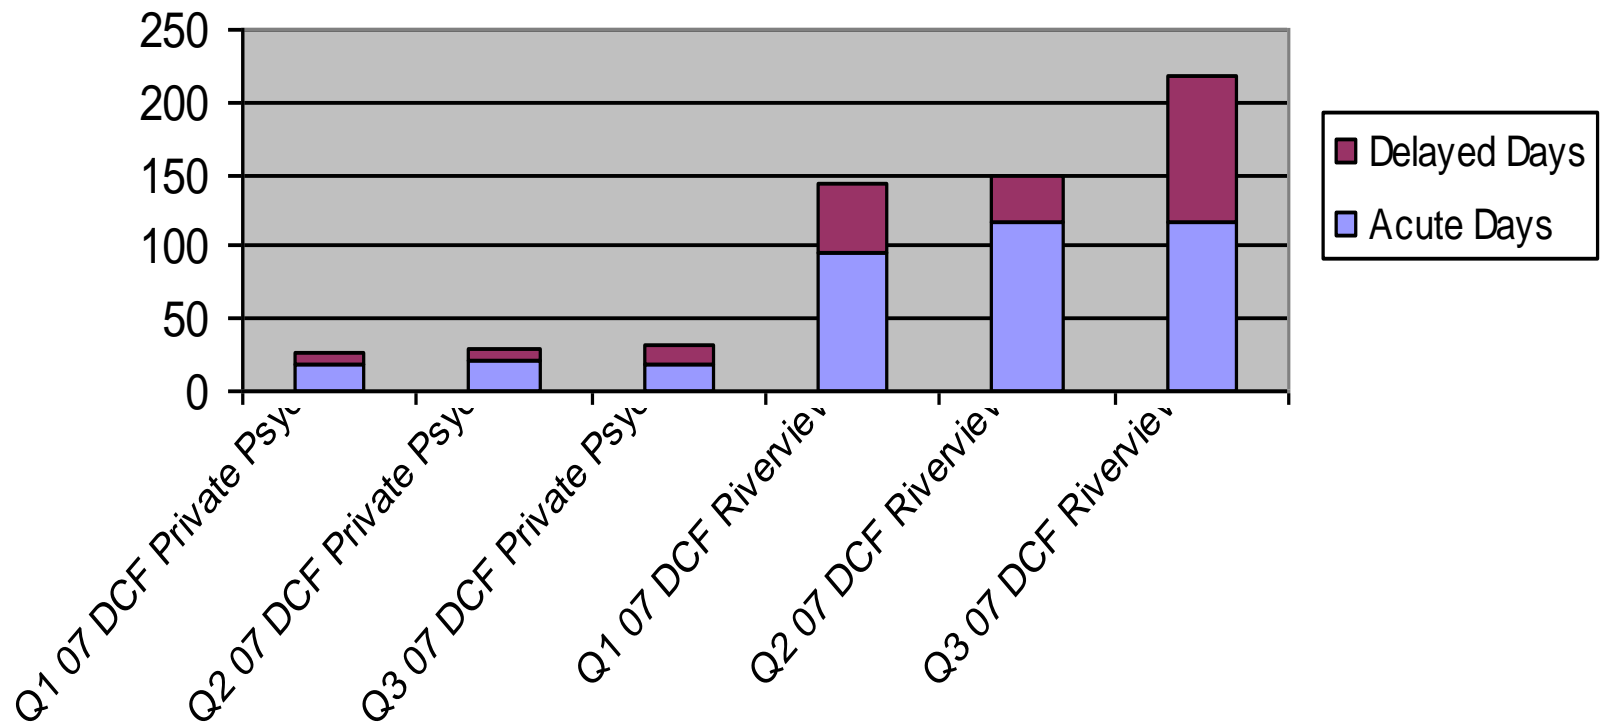

Average LOS

DCF vs Non-DCF, Private Psychiatric Hosp vs Riverview

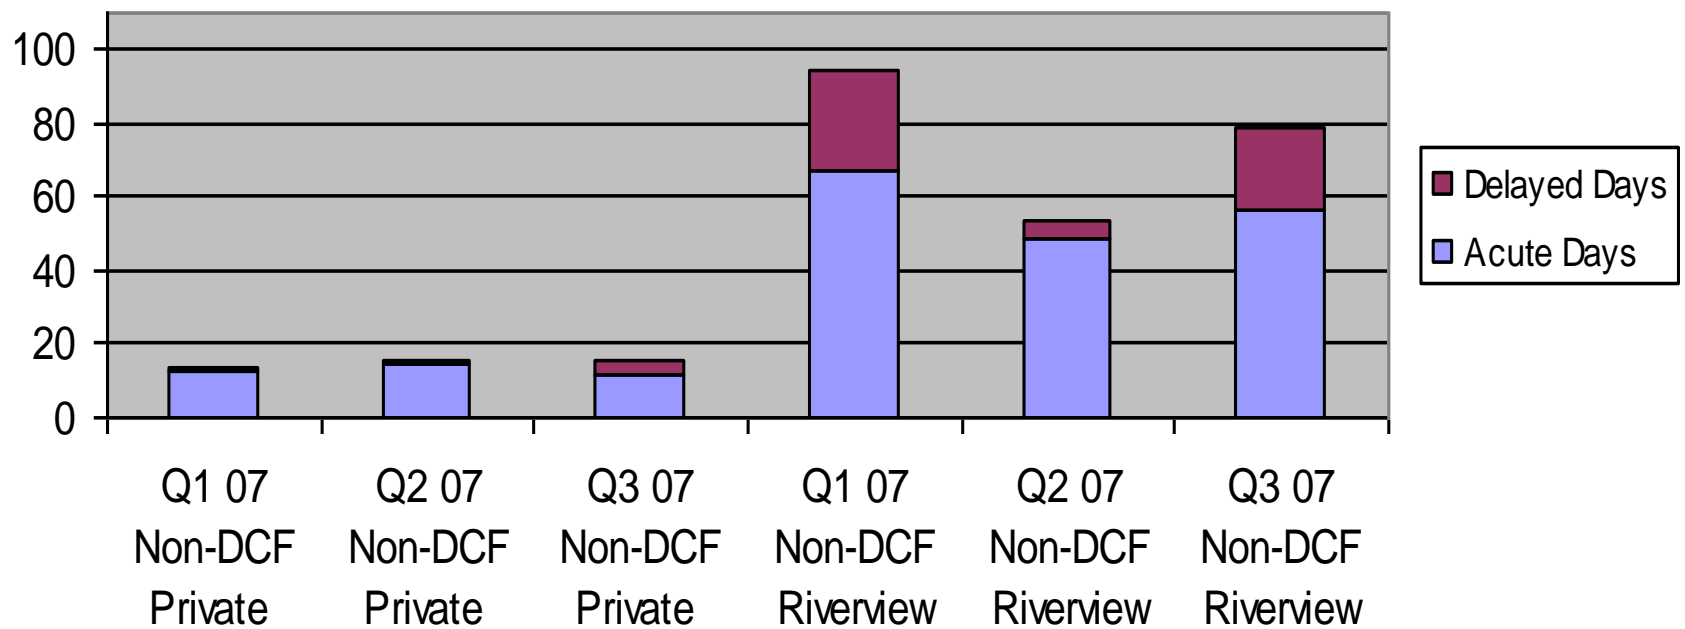

DISCHARGE DELAY

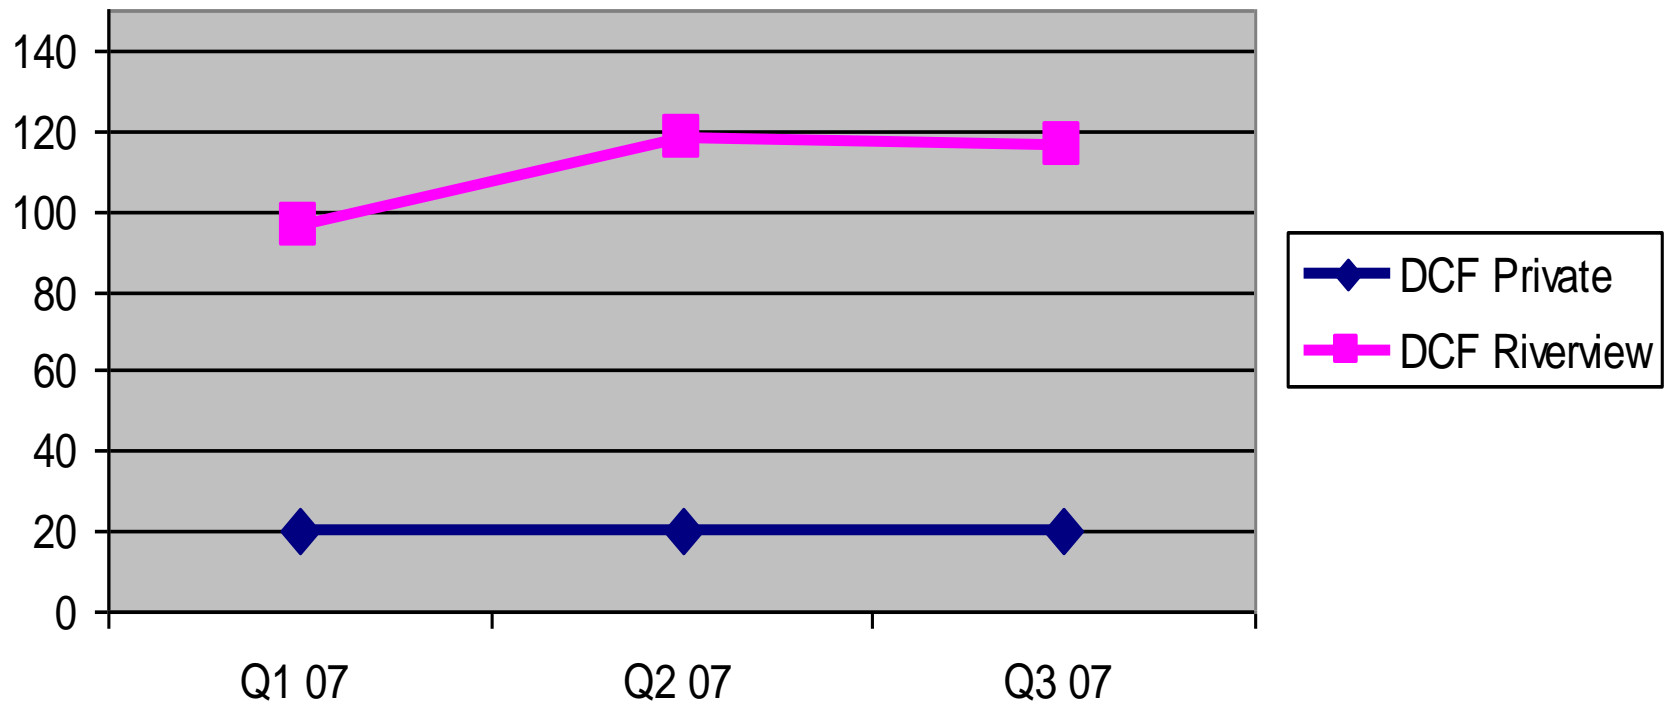

DCF Inpatient LOS; Acute vs Discharge Delay; Private Psychiatric Hospitals vs Riverview

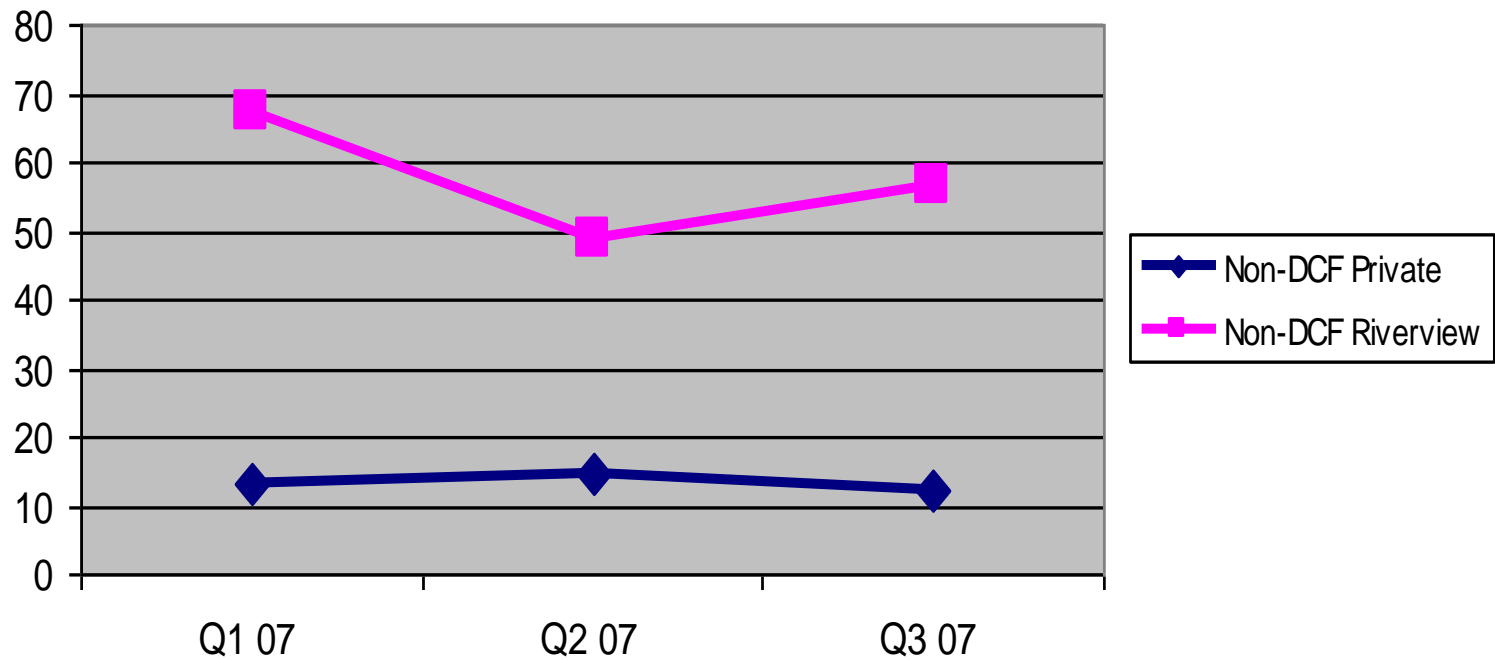

Non-DCF Inpatient LOS ; Acute vs Discharge Delay; Private Hospitals vs Riverview

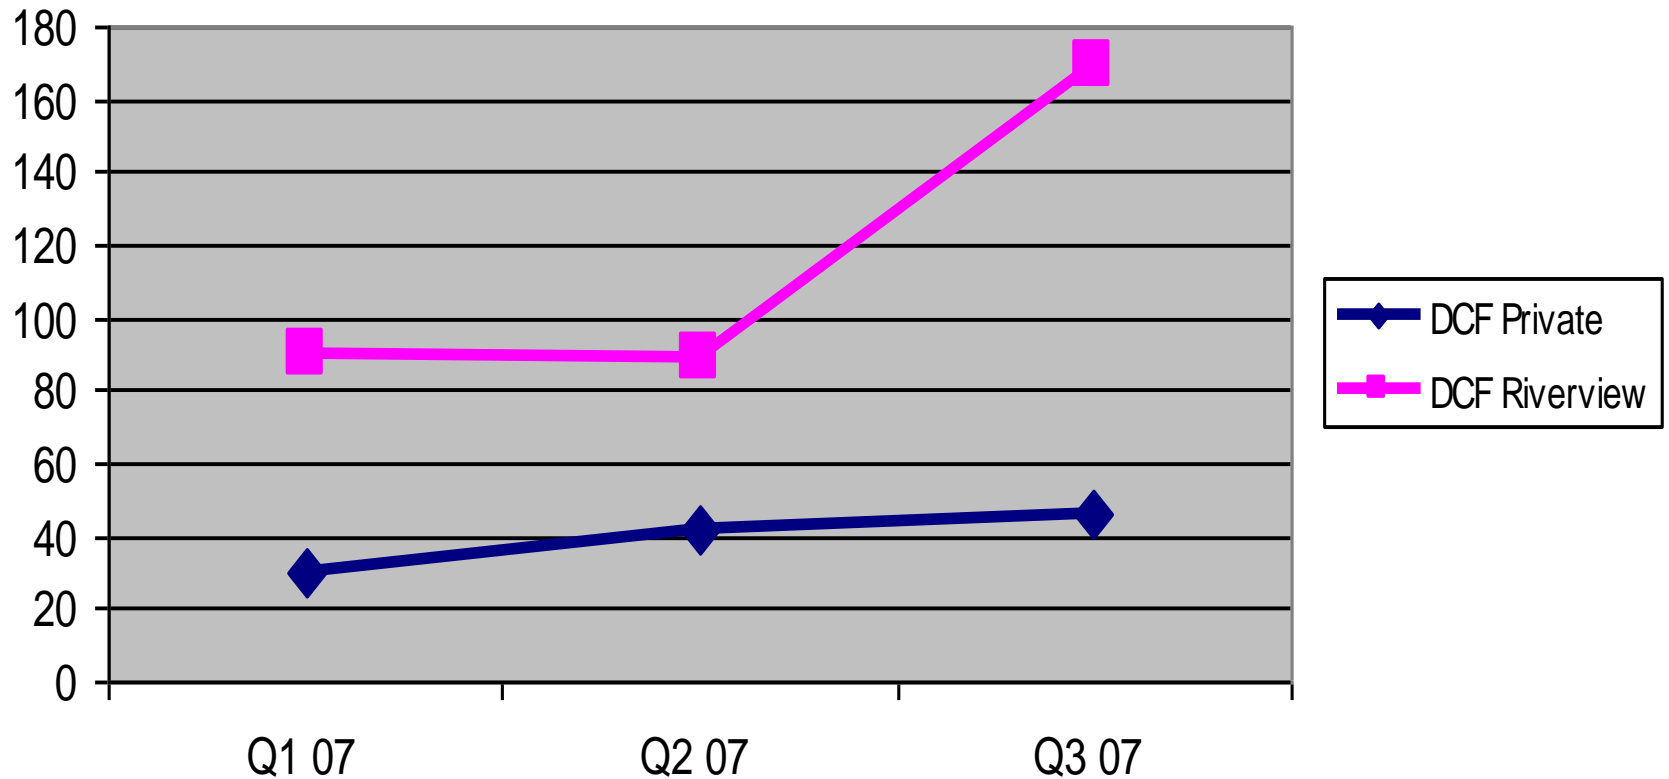

DCF Acute ALOS; Private vs Riverview

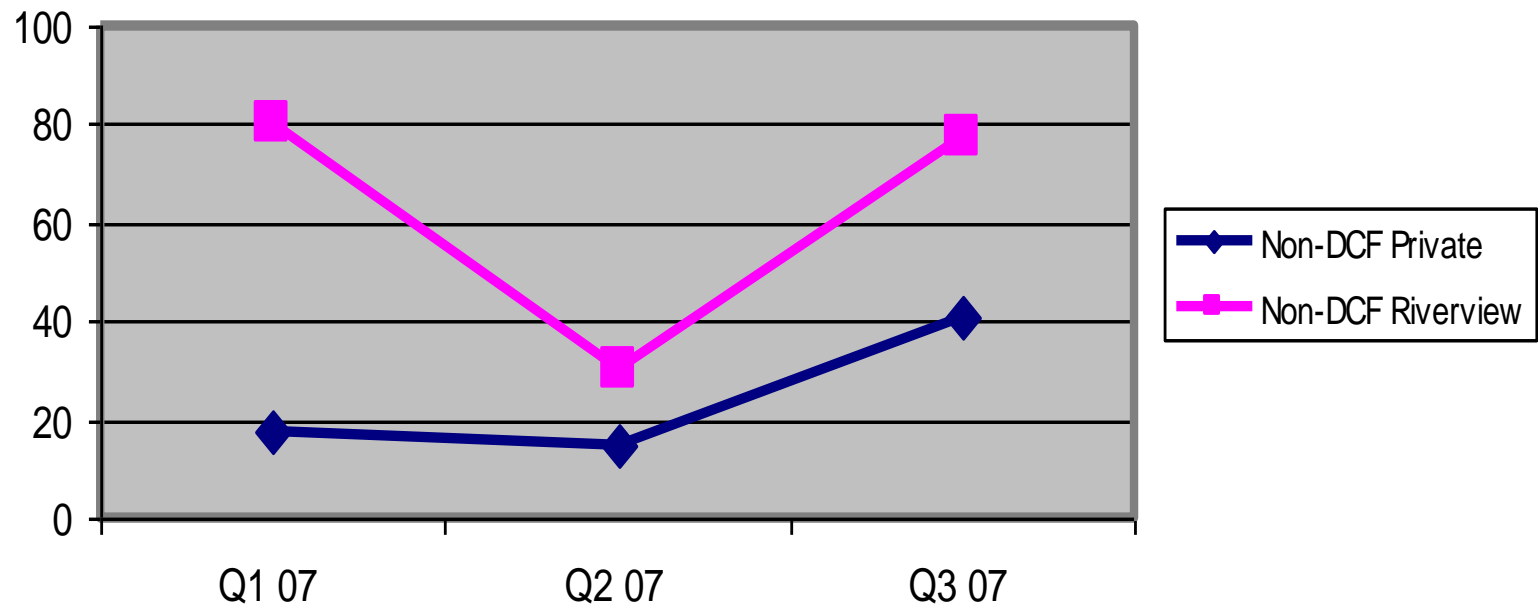

Non-DCF Acute ALOS; Private vs Riverview

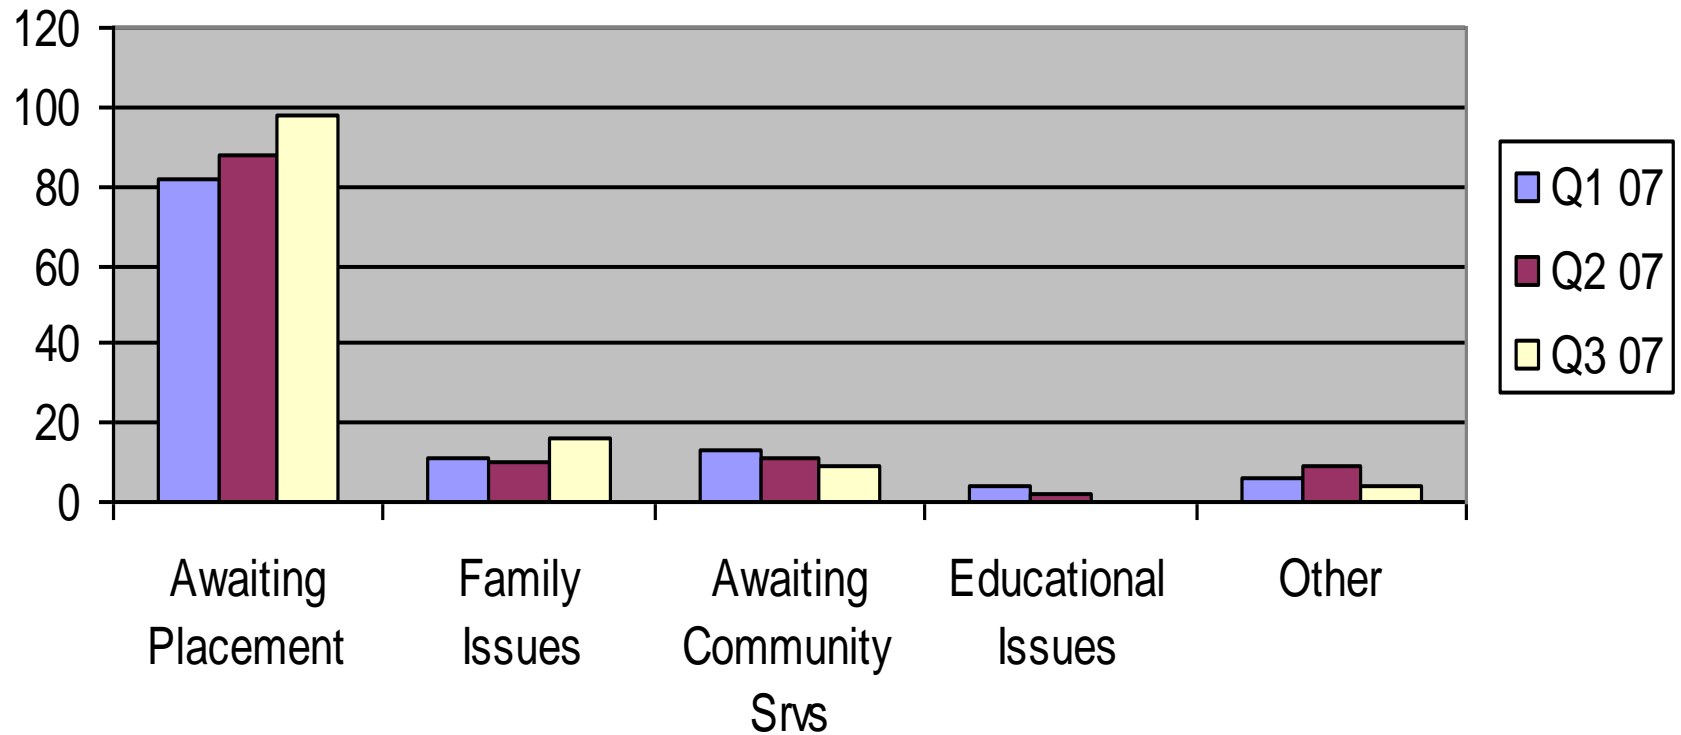

DCF Delay ALOS; Private vs. Riverview (Delayed cases only)

Non-DCF Delay ALOS; Private vs Riverview (Delayed Cases Only)

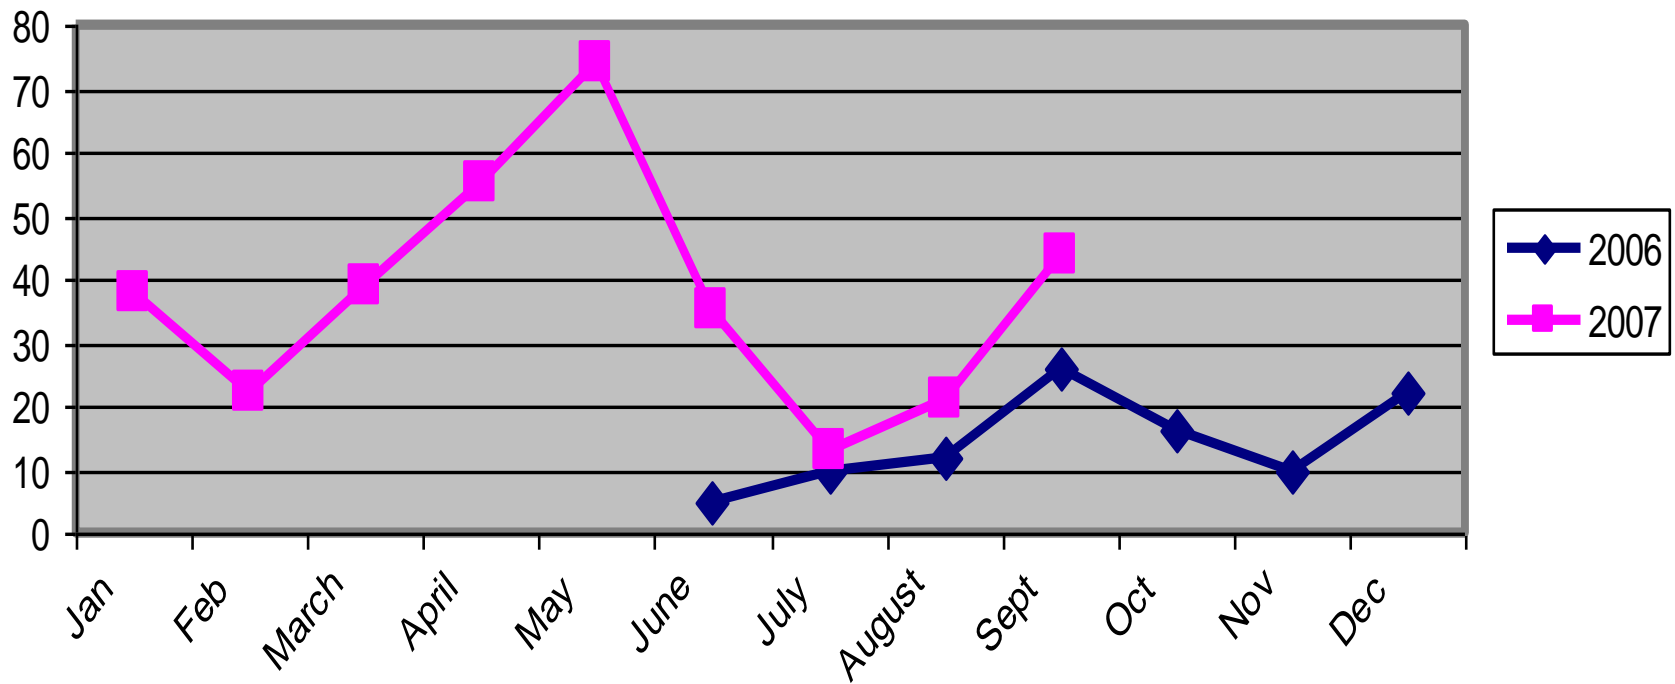

Inpatient Delay Reason Codes by Major Category (without Riverview)

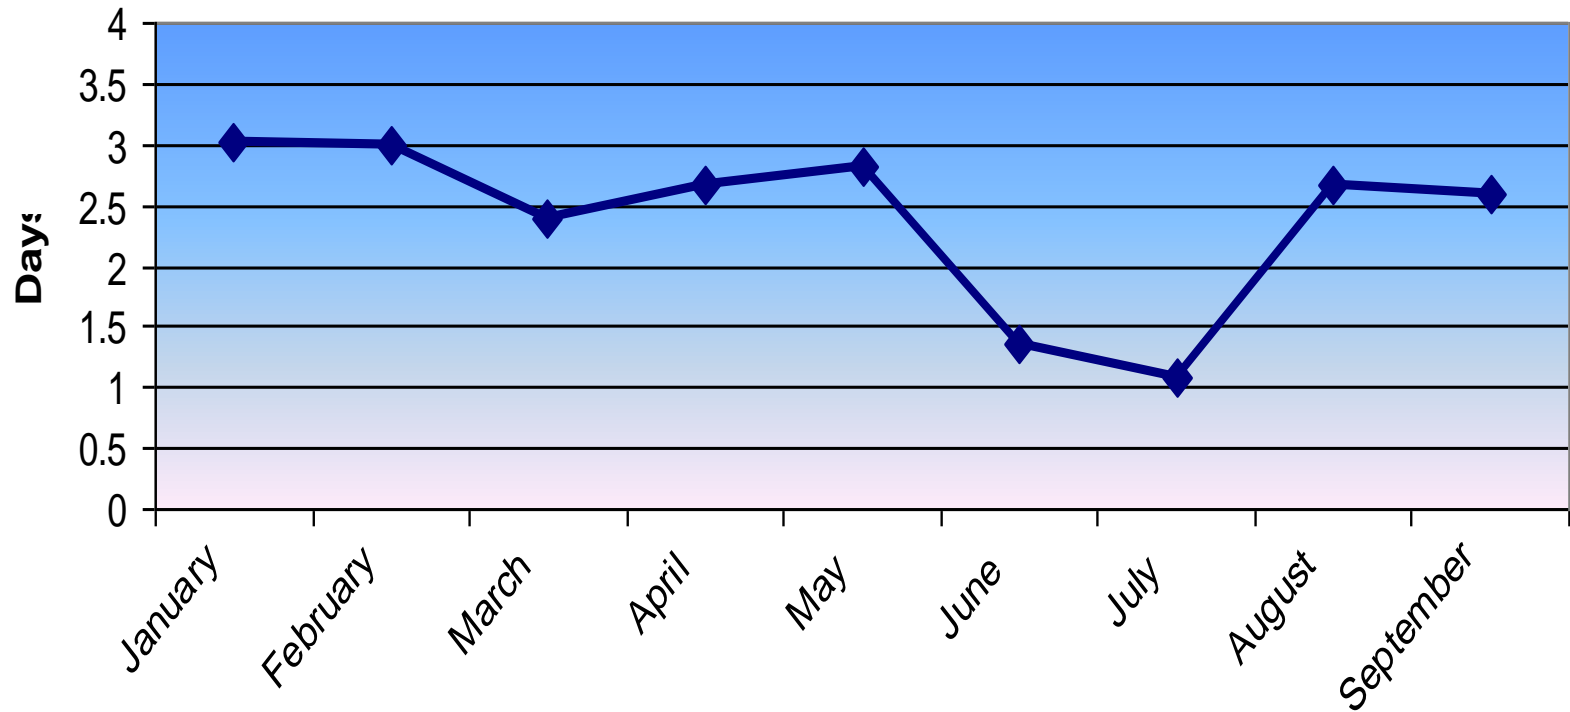

ED DELAY

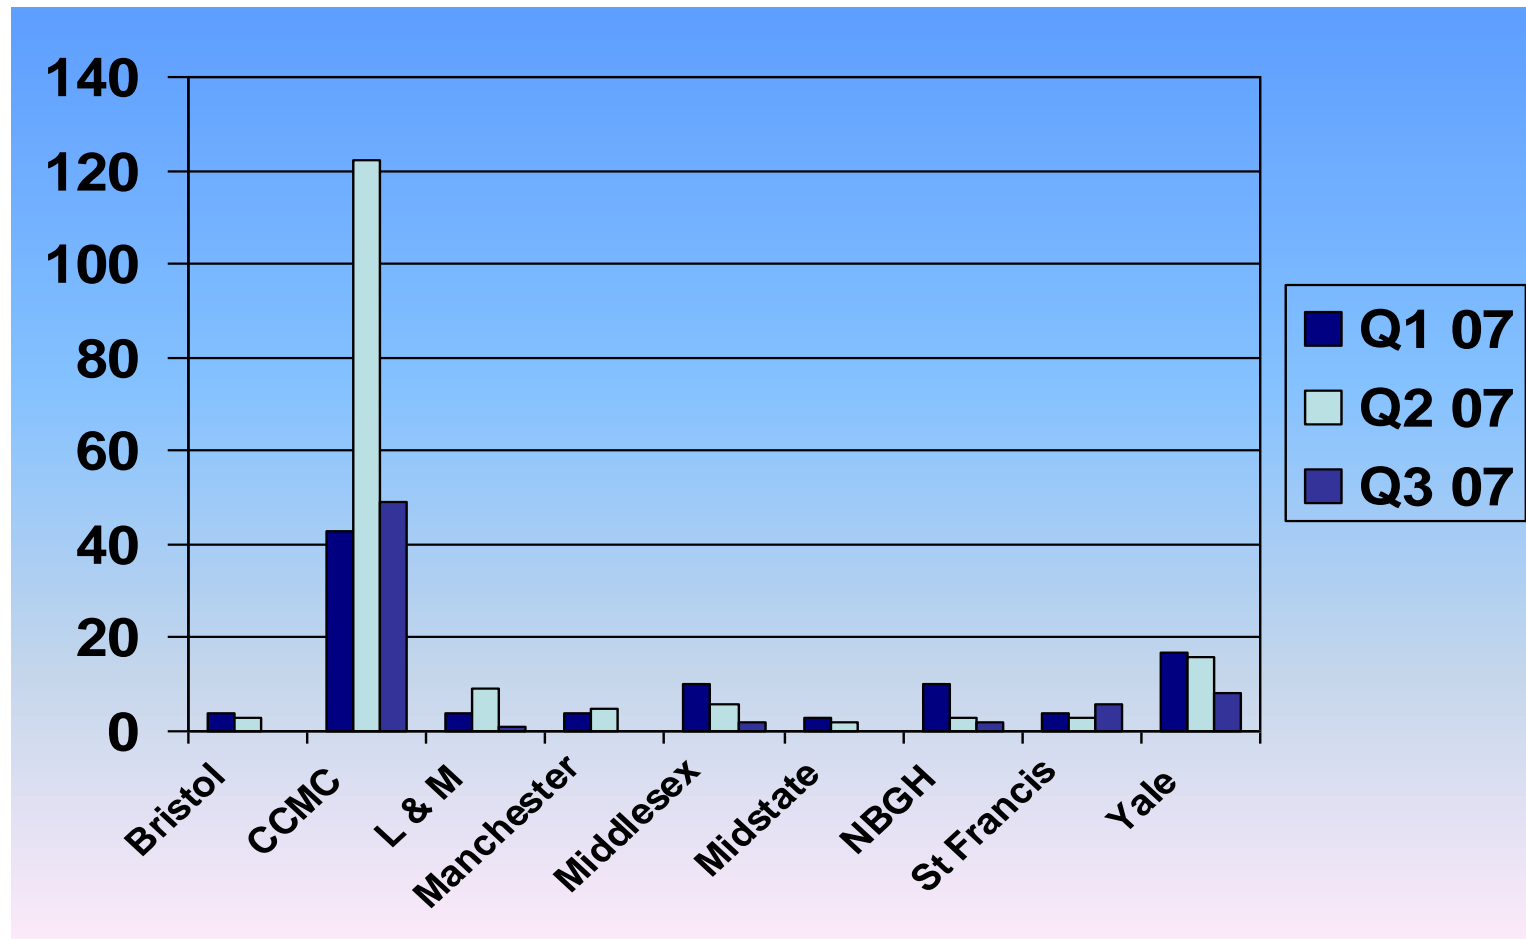

Members in ED Delay Tracking Status per Month

Average LOS in ED in 2007 (all ED's)

Count of Children/Adolescents Delayed in ED

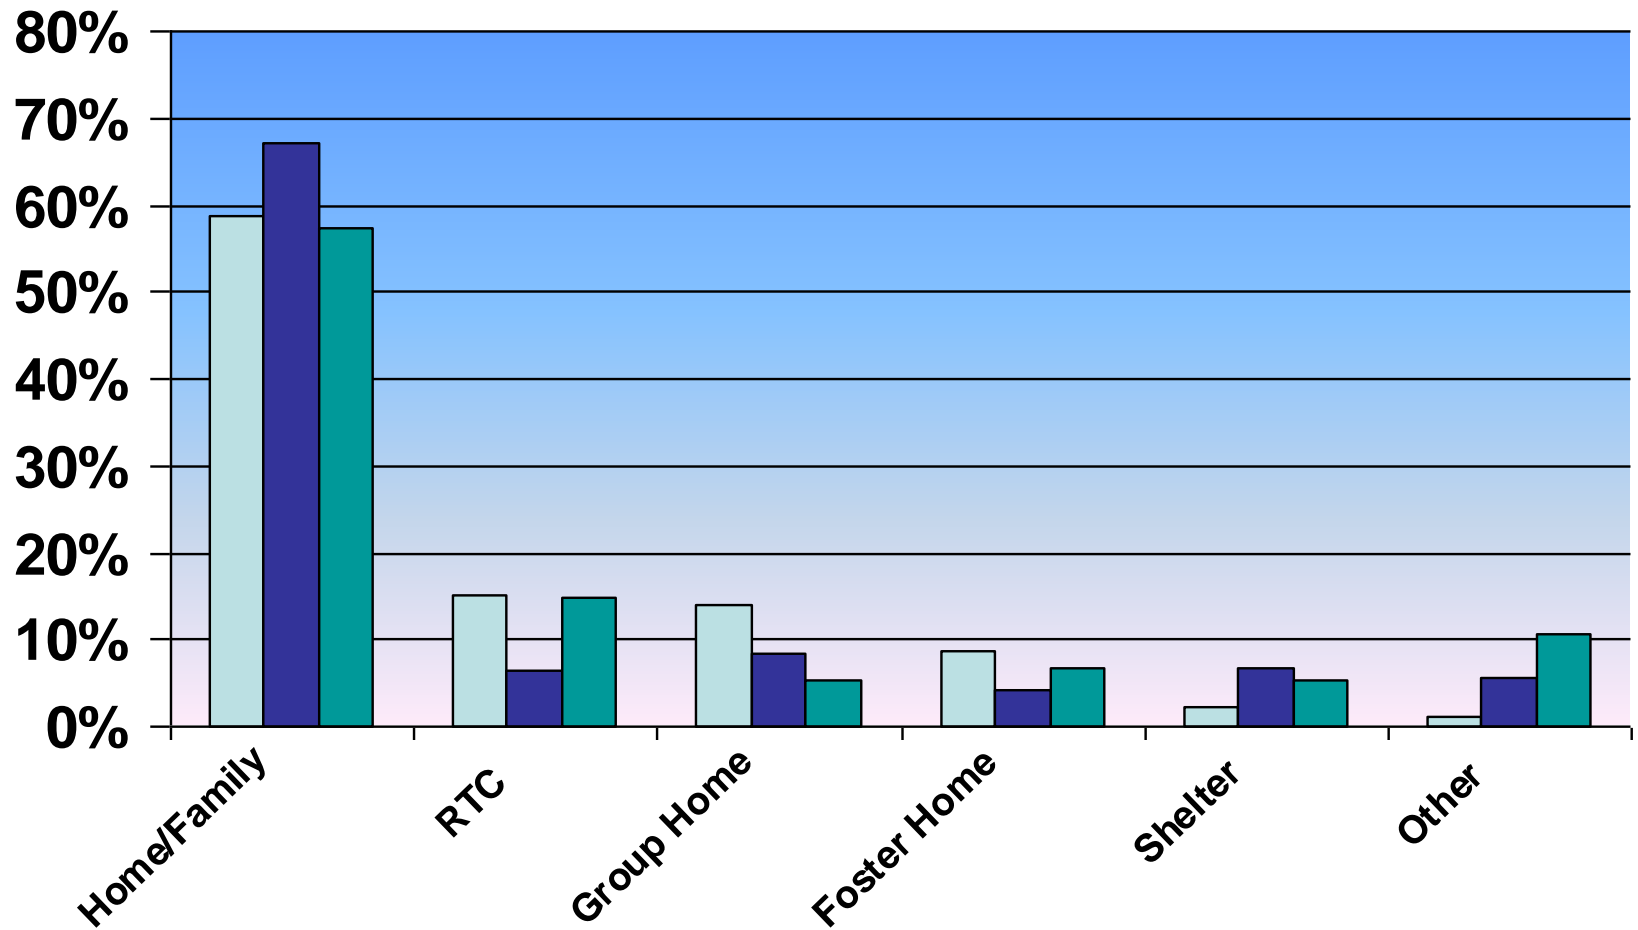

ED Delays

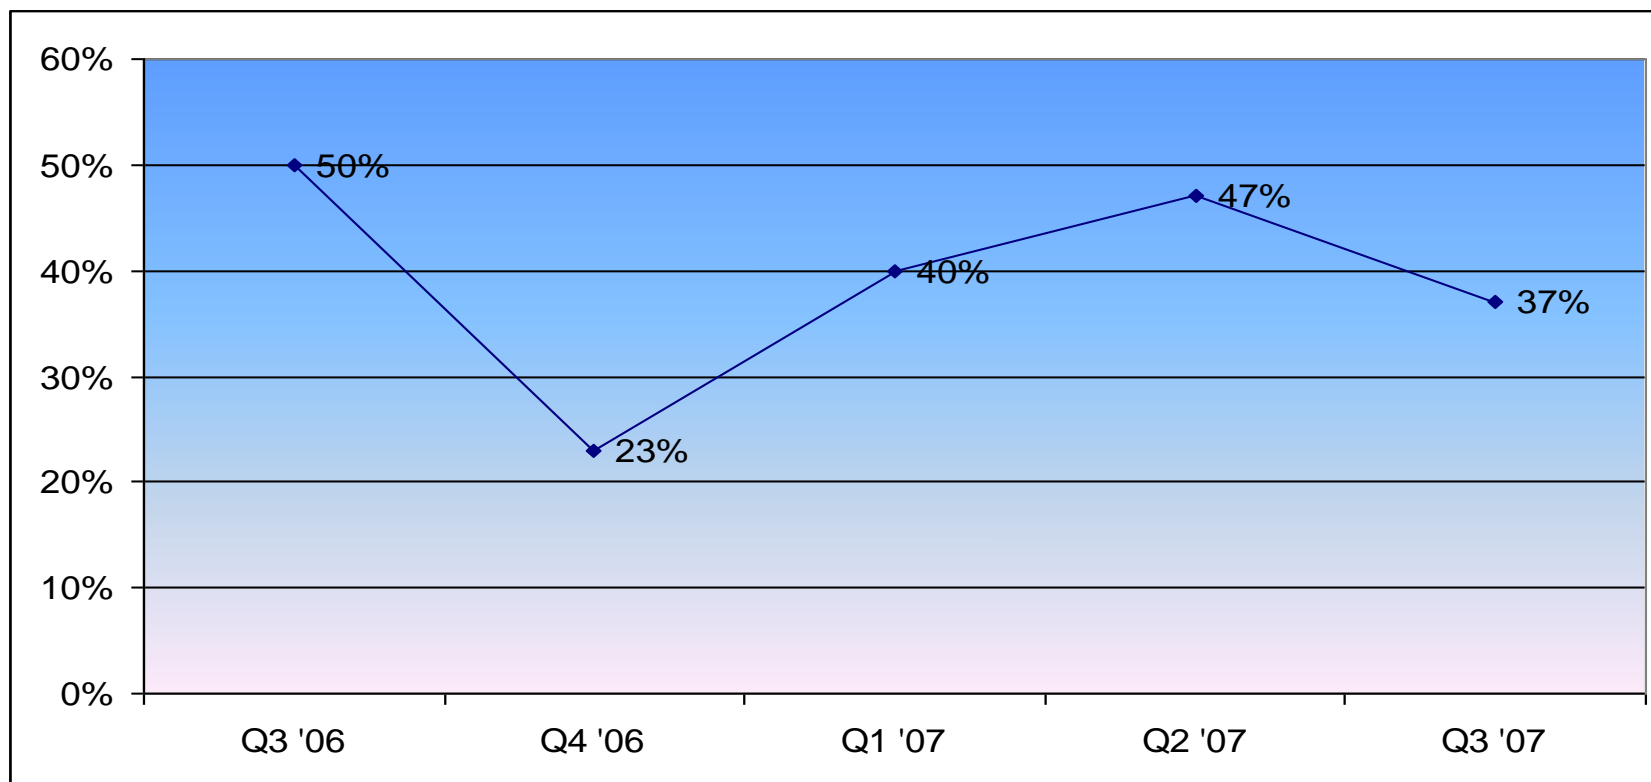

- CCMC has highest volume of youth delayed in EDs
- Overall, Q3 07 had lower volume than previous two quarters of 2007
 - When admissions to medical beds are included in Yale counts, that facility has second highest count of ED delays (17, 16, and 8 respectively)
 - Other relatively high volume ED delays are Middlesex (10, 6, 2), NBGH (10, 3, 2), L&M (4, 9, 1) & St Francis (4,3,6)

RESIDENCE PRIOR TO ED VISIT

Q1-3 '07

Rate of Diversion to Community Services among Children Delayed in ED (All EDs)

2007 CCMC ED Disposition Data
