

SUD Planning Grant

Key Stakeholder Interview Questions

Purpose: *The purpose of these questions is to gauge input from key stakeholders such as; substance use disorder treatment providers, researchers, academia, and statewide advocacy groups that service youth, adolescents, and adults. In addition, the information gathered cannot be assessed through a survey, such as perception of current delivery system, systemic barriers to substance use disorder treatment and recovery, and system changes stakeholders would like to see.*

1. **What are the strengths of the Substance Use Disorder treatment system?**
2. **In your opinion, what are the top three best practices/core competencies Substance Use Disorder treatment providers should demonstrate?**
3. **What is the single largest struggle/barrier within the Substance Use Disorder treatment system?**
4. **What does it mean when you hear primary care integration within SUD system?**
5. **In your opinion, what is missing from the ideal Substance Use Disorder treatment system – what are the gaps?**
