Youth Specific Curricula

Youth Awareness on Child Trafficking: This curriculum is a 45- 60-minute Awareness presentation to educate youth ages 12 to 18 on child trafficking. The training provides an overview of what child trafficking is, what makes children/ youth more vulnerable, red flags to watch for and what to do if you suspect they or someone else is a victim. This curriculum was vetted with youth across the state to ensure the content was impactful and relevant to youth of this age range. The Youth Awareness presentation is a one-time educational opportunity to raise awareness.

This curriculum can be conducted in-person or through a web-based interactive platform.

My Life My Choice (Prevention Curricula): This Curriculum is 10-sessions, 75-minute each, designed to address the experience of exploitation in a female body, ages 12-18 years. The curricula is designed for both cisgender and transgender girls, as well as trans boys who experienced exploitation while identifying as female. Each session includes a variety of activities including icebreakers, discussions, role plays, hands-on activities, as well as more introspective opportunities including journaling. Sessions address issues including myths and facts about commercial sexual exploitation, how to identify a pimp, recruitment tactics, substance abuse, self-esteem, sexual health, healthy relationships, and local and national resources to support youth at risk of exploitation. This curriculum can be conducted in-person or through a web-based interactive platform.

Youth Prevention - Not a #Number: Love146's Prevention Curriculum, *Not a #Number*, is an interactive five module curriculum designed to teach youth how to protect themselves from human trafficking and exploitation through information, critical thinking, and skill development. The program integrates a holistic view of the issue by focusing on respect, empathy, individual strengths, and the relationship between personal and societal pressures that create or increase vulnerabilities. Through open conversations, engaging activities, the use of media, and opportunities for disclosures, participants find ways to move beyond awareness to behavioral change.
