## ■ **Contact with Practices**

- The staff reviews practice measure data from the practice's Annual Profile report, claims and practice EHR reports during Q1 of each year.
- CPTS staff are required to meet with their assigned practices (FQHC/PCMH/Glide Path) quarterly. Many practices request monthly meetings.
- The CPTS helps practices choose measures to improve for the calendar year.
  - Measures are chosen based on low percentile rates (less than 50%).
  - These chosen measures are considered 'engaged measures'.
  - Measure resources, best practices, and improvement recommendations are shared with the practices.
  - Practices may choose not to engage due to limited resources, staffing issues, or lack of incentive associated with a measure.

## ■ **Measure Tracking**

- The CPTS monitors the practice's chosen measures, rates, processes, planned practice interventions and barriers to implementation and improvement.
- The staff uses the Plan-Do-Study-Act (PDSA) model for QI with the practices.

## ■ **Dashboard Review**

- CHNCT has developed an internal dashboard that provides current year to date measure rates with only a two month claims lag.
- The dashboard rates are reviewed with the practices at each QI meeting.
- Practices are provided a spreadsheet or power point with their current measure rates.

# CPTS Practice QI Engagement

## ■ Measurement year (MY) 2023 Results

- 69 PCMH practices
- Improved 32 different measures
- 3% - 67.1%

## ■ MY 2024 Year to Date Results\*

- Thirteen FQHC practices (87%) engaged with their CPTS on measures for QI
- Sixty PCMH practices (72%) engaged with their CPTS on measures for QI
- Eight Glide Path practices (67%) engaged with their CPTS on measures for QI

\* Results not final, as new practices may engage on measures through the end of the year
