“DNA Testing and Genomic Medicine Information Forum”

at

<https://www.cga.ct.gov/ph/>

3 Main Questions for the day:

- How are genetic tests, genomic and precision medicine changing the landscape of healthcare?
- How can healthcare professionals ensure equal access, treatment, privacy and safety for patients' health and health data using genetic testing, genomic and precision medicine?
- What role, if any, does the state have in ensuring the safety, security, and integrity of the testing process?
