

No extension of Ned Lamont's emergency powers. We are in a different place now and the people have a voice!

1) Local authorities can manage "hot spots" and ask for state assistance as needed.

2) his emergency powers are leaning into areas outside of public health and we won't stand for this abuse of power

3) He has managed like a monarchy and that is NOT how our government should operate

4) He's out of control.

His ratings were tanking before the pandemic. Stop allowing this to be used for political gain. None of us will vote for ANYONE who allows his emergency powers to be extended today.

Thank you kindly for your service.

Allyson Nadeau-Schmeizl, MPA
