

Dear Members of the Public Health Committee:

I am writing as a mom of Three I to urge you not to legislate or codify the EO 13A - Mask Rule. My children go to the school that has been on the news for implementing the masks with slits in them at band. How effective can a mask be if it has a hole in it and you are putting an instrument through it into your mouth? What is this doing to the mental health of our kids? Also cloth Masks are ineffective at stopping spread (Jan. 2022- CDC). So why is it a requirement to wear them? Parent should be able to choose for their children.

Thank you,  
Mother of 3
