

2/7/2022

Dear CT General Assembly,

I oppose the extension of all of Governor Lamont's Covid Emergency orders because there is NO longer a Covid 19 pandemic which warrants public health emergency. Lamont's policies and mandates are what are ruining people's lives, not the SARS COV2 virus.

It's ALL ABOUT MONEY and NOT ABOUT PUBLIC HEALTH. The public pays attention every time the Lamont Administration mentions that Federal funding will stop if the emergency orders are not extended. The State has received billions of dollars. It's time for some accountability which includes audit of how all covid funds have been allocated.

STOP SPENDING FUNDS TO PROMOTE INEFFECTIVE VACCINES and PROMOTE THERAPEUTICS that are proven effective at keeping people from being hospitalized and dying. The Front Line Critical Care Consortium protocols for example have saved thousands of lives. Lamont has not even once mentioned Ivermectin, HCQ, steroids, vitamin D, aspirin, etc. There are third world countries that have lower death and case rates than CT.

STOP THE MASK CHARADE. The CDC has finally admitted that cloth and surgical masks don't work. I guess the CDC has finally read the over 100 studies that show they are ineffective and worse cause harm. The public simply had to read the mask boxes which indicate on the label that they don't protect against viruses.

STOP FIRING NURSES, DOCTORS, AND FIRST RESPONDERS. You are costing more lives by doing this.

STOP IGNORING THE CONSTITUTION and the fundamental rights of CT citizens in the name of public health. We paid attention in history class. Tyrants used these tactics and populations did not thrive. These agendas led to war and the ultimate development of the Nuremberg Code.

STOP THE MANDATES. Mandating EUA products violates Federal Law. Yes masks, tests, and the Covid vaccines currently available are NOT APPROVED BY THE FDA. The public is being duped. The Comirnaty vaccine is NOT available in the U.S. and is NOT FDA approved and has been deemed by the courts to NOT BE INTERCHANGEABLE WITH THE PFIZER VACCINE!

In the last 2 years Lamont and the people of CT have held weddings, vacationed, attended schools, held graduations, concerts, gambled, flew on airplanes. In the 'free' states they have done all these things without mandates and restrictions. THE EMERGENCY IS BEYOND OVER.

Sincerely,
Barbara Rudini
Trumbull, CT
