Dear Public Health Committee

I strongly oppose the governor's orders to be extended as well as voting on all 11 executive orders collectively. The 11 executive orders should be voted on individually. I am also concerned that these are being voted on without a public hearing so that all of the constituents can be heard. Not sure why this is being done via zoom when most people are back to work or haven't left at all. I also OPPOSE and ask you to vote NO on school mask mandates.

What is happening to our legislative process?

Regards,  
Jessica Teixeira
