

Hearing Date 2/8/22 9:00AM

I'm in support of the continuation of the Emergency Declaration and Limited Executive Orders. I'm especially in support and in favor of continuing **No Excuse Early voting**. The Absentee Voting with COVID as an excuse during the pandemic was successful and allowed every eligible individual to exercise their right to vote. No one should have to hesitate to exercise their right to vote because they fear Covid themselves, exposing other people to the virus or any other personal reason.

Thank you

John
