

February 5, 2022

Ladies and gentlemen,

I am writing to submit my testimony for the hearing on the extension of Governor Lamont's emergency powers related to the pandemic.

It is far past time for this to end! COVID 19 has never been isolated, therefore doesn't really exist. It has been admitted by the FDA that the PCR tests were never set on detecting COVID, instead were set to discover the flu. These testing tools were ineffective. They caused a hysteria. The masks that were forced on everyone, have also proven to be ineffective and useless. These were mostly harmful to our children on a few fronts. The COVID 19 virus was hyped to scare people into submission. It is being made more clear to the public that the death numbers have been manipulated to entice people to vaccinate. All other types of deaths have been marked as COVID, so that medical facilities can collect incentives for doing so. "Get the vaccine" they said. "Get the booster" they said. "Get the second, get the third" they said. When will it stop! These vaccines do not prevent you from getting or transmitting COVID. Why are we continuing to push

more shots? This is like the old adage of the definition of insanity: continue to do the same thing expecting a different result! This is all for a virus that is over 99% survivable. In all, the price for all this nonsense has been too high. Loss of jobs, businesses, school closures, increased suicides, diminishing social skills of our children, the loss of two years of continuous and uninterrupted quality education of these kids has been far to great, for something that was only supposed to be,” two weeks to flatten the curve!” We’ve had our state damaged enough by this farce! I emlore you to vote NO on the extension of emergency powers. I ask you to follow the lead of other states. Have the courage to be leaders and do what is right and end the Godforsaken mandates and COVID policies. Thank you for your time.

Respectfully,

John W Taylor
