Dear Public Health Committee

THE CONSTITUTION STATE NO MORE!!!!!!

I OPPOSE the Governor's orders being extending and ALL 11 executive orders.

King Lamont has had his rein... it is time for his emergency powers to be relinquished and we empower the legislative branch once again. For the people for the state and for democracy.

We are now a state of tyranny...how do I know this? Well for starters C now does not recognize my religious beliefs on what I allow in my body or my children's bodies. We can go on about monkey enzymes and aborted fetus's being used in vaccines, but I'll stop there. The point is my freedom of religion and freedom of choice have been taken away by the CT government. You will say no I still have choice, but when we mandate our schools and our jobs what choice do, I have besides move to a red state or shut up and obey. Masks! FDA and CDC now recognize that cloth masks do damn near nothing as in protection or transmission sounds a lot like our covid-19 vaccine so why are we keeping our children masked inhaling their own carbon for 6 hrs. This is not only a huge health risk but also creating mental health issues. Our young children will not know what their friends look like out of school, which girl they are attracted too to ask to prom. Basic facial expressions THIS IS NOT HEALTHY! No public hearing only public suggestions via zoom? We are all in work and in school why the zoom why not in person? Why can't we look each other in the face like real humans?

Where is the public hearing on these issues? This needs to be scheduled ASAP. I hope that there will be time for the constituents and Representatives to go through the bills thoroughly before being voted on. Furthermore the 11 executive orders need to be voted on individually.

Thank you

CT voter
