Extension of emergency powers

To PHTestimony@cga.ct.gov <phtestimony@cga.ct.gov>

I, along with most of the residents of CT, believe the end of the Governor's emergency powers is long overdue. We all know there is no emergency. There is no plague. Almost everyone I know has gotten the omicron variant. We are all alive and well to tell about it.

We want the legislators we elected to do the work the CT Constitution spells out they should do! We want you to listen to and do the will of the people. We want you to stop playing partisan footsie with the Governor. Stand up to him, for God's sake.
Say no!

November is quickly approaching.
