PLEASE VOTE TO END ALL COVID EXECUTIVE ORDERS, MEASURES AND  
LOCKDOWNS

Dear CT Legislators,

I am writing to urge you to vote NO on any extension of Lamont's emergency powers and executive orders and to END all mandates and discriminatory practices and policies against our citizens and the unvaccinated population.

The mandated masking, lockdowns, social isolation, and discriminatory policies singling out the unvaccinated have clearly caused great harm to our population and our children, while providing no significant benefit. I hope you have had a chance to review the recent Johns Hopkins meta-analysis which proves this to be the case. The study, titled "A Literature Review and Meta-Analysis of the Effects of Lockdowns on COVID-19 Mortality," said lockdowns in Europe and the U.S. reduced COVID-19 deaths by only 0.2 percent.

The John's Hopkins authors state: "Overall, our meta-analysis fails to confirm that lockdowns have had a large, significant effect on mortality rates."

The study authors also admit that government COVID measures have cause great harm: "They have contributed to reducing economic activity, raising unemployment, reducing schooling, causing political unrest, contributing to domestic violence, and undermining liberal democracy. These costs to society must be compared to the benefits of lockdowns, which our meta-analysis has shown are marginal at best. Lockdowns should be rejected out of hand as a pandemic policy instrument."

Additional to the harms caused by the lockdowns, it is now beyond clear and scientifically proven that the masking of our children is causing them great harm, both physical and psychological. Lower IQ, slowed social development, headaches, brainfog and infections, and increased depression and anxiety in our children have all been proven in scientific studies. Every day more citizens of our state learn the truth about masking and agree it must stop. The false narrative is crumbling. Be on the right side of history and vote to stop these unscientific, illogical and evil mandates and policies.

Sincerely,

Megan Belval, J.D.  
Avon, CT
