CT Legislators,

I am writing in regards to Mask Choice in CT Public Schools. I am asking that you lift the Mask Mandates and give parents and students the choice on whether they wear mask or not. Children have never been the initial threat of this pandemic, and we should let their immune systems do the job they are meant to. Just as people choose TO wear a mask, they should also be able to choose NOT to. We are going on 3 years of this pandemic. Our communities are vaccinated enough to have herd immunity. My children don't wear a mask anywhere they go, except to school. They don't wear a mask in grocery stores, shopping malls, movie theaters, at friends houses or while visiting family. So why are they wearing them to school? Enough is enough!! Let our children breathe freely again! Stop the mandates!!

Sincerely,
Noel Murphy
