

**"Albert Einstein
said blind
obedience to
authority is the
greatest enemy
of truth.**

**Science can
flourish only in
an atmosphere
of free speech.
The Hegelian
dialectic is a 3
step process of
bringing
change. This
technique is as**

old as politics itself.

First step(thesis) Is to create a problem. Second step (antithesis) Is to generate opposition to the problem (fear,panic and hysteria). Third step (synthesis) is to offer the solution to the problem created by the first step. A change which would have been impossible to impose upon the people without the proper psychological conditioning achieved in step one and two. Why is it important for you to understand the subject of Hegelian dialectic? Because it is the process by which change is Being

accomplished in society today. More importantly it is the tool that the global elite are utilizing to manipulate the minds of the average citizen to expect that change, where ordinarily they would refuse it. The Hegelian dialectic is, in short, the critical process by which the ruling elite create a problem, anticipating in advance the reaction the population will have to the given crisis, therefore conditioning the people that a change is needed. When the population is properly conditioned, the desired agenda of the ruling elite is presented as the solution. The solution

isn't intended to solve the problem, but rather to serve as the basis for a new problem or Escalade the existing one. When the newly created problem reaches the boiling point of crisis, it becomes the foundation upon which arguments May again be made for change. The process is repeated over and over moving society towards whatever end The planners have in mind. 70% of the budget for the media conglomerates comes from pharmaceutical companies. Sema4 announced there fourth quarter revenue which is significantly above what

was expected. Sema4 is partially owned by Governor Ned Lamont's family, the state awarded 26 million no bid contract. Governor Lamont has yet to disclose his family's profit in this investment. How much did his executive orders play a role in their annual growth? How is this not illegal? How can anyone take him and his mandates seriously? And why are we seriously considering granting a 7th executive order? With the surge of data coming in about the inefficiency of the masks and vaccines Why is this still even up for debate? Enough using children as

political pawns, Please end this tyranny before this escalates into something irreversible for the future generations.
