

CONNECTICUT VALLEY HOSPITAL

PHYSICAL THERAPY SERVICES

Mission Statement

The mission of Physical Therapy Services at Connecticut Valley Hospital is to provide treatment in an efficient and effective manner while fostering self-sufficiency, dignity and respect for adults with physical disabilities in the programs of Geriatrics, Acquired or Traumatic Brain Injury, Substance Abuse, Forensics and General Psychiatry. Emphasis will be placed on:

1. An individualized, interdisciplinary approach to treatment taking into account the individual's cultural, ethnic, and socioeconomic background.
2. Enabling each individual to reach and maintain his/her potential in functional abilities.
3. Consideration of individual needs for appropriate community placement.
4. Providing education to patients, staff members, families, and community agencies in order to achieve improvement in quality of life for each individual.
5. Enhancing Physical Therapy Services through continuing education for staff.
