July 14, 2011

To the Connecticut Reapportionment Commission

Supplement to Districts 149, 150 and 151 Redistricting Proposal

We are pleased to report that we are able to supplement our proposals dated June 24, 2011 with census data, maps and reports generated by the redistricting program in the public computer in the State Assembly's Library.

Annexed as Exhibit P are census maps of the proposed State House Districts 149, 150 and 151. Exhibit Q is the "Bill Language Report" describing the districts as redrawn by street name. The lines are slightly adjusted from the proposals outlined in Exhibits C and D in the June 24 report to achieve the target size. The primary difference is that Milbrook, a private gated community, is moved from District 150 to 151. A small mapping error should be corrected by the Commission staff by moving Overlook Drive, West Brothers Drive and Cliff Road, which are within Milbrook, to District 151 and LeGrande Avenue, Hunter Place and Quarry Knolls, that are outside Milbrook and part of Central Greenwich, to District 150. This revised plan is consistent with the approach of preserving the integrity of recognized neighborhoods and having similarly situated persons voting in the same district. The proposed districts satisfy standards for compactness as shown in the Compactness Analysis Report annexed as Exhibit R.

As set forth in the "Population Totals" report (p.3) appended hereto as Exhibit S the proposed plan for District 150 results in a district of 23,656 persons which is only 0.1% deviation from the standard. District 150 is 16.1% minority (13.2% Hispanic and 2.9% Black).

District 151 as redrawn would include 23,662 persons, which is a 0.0% deviation from standard (Ex. S). District 151 would be 11% minority (9 % Hispanic and 2.1% Black).

District 150 and 151 are "landlocked" in the sense that they are both located entirely within Greenwich and are bordered by New York. The only district that extends beyond Greenwich today and in our proposal is District 149. Our proposal does not deal with the portions of District 149 beyond Greenwich's borders, but it is evident given the two conforming districts entirely within Greenwich that extending 149 further into Stamford or New Canaan would be required. Under our proposal the portion of District 149 in Greenwich would have 13,853 persons a deviation of 41.5% or 9,817 persons from the standard (Ex. S). That district would be only 6.1% minority (5.2% Hispanic and 1.0% Black).

That District 150 and 151 have much higher minority populations reflects that they comprise the more densely populated neighborhoods in Greenwich, including all eight developments of the Housing Authority. District 149 by contrast consists of four-acre and two acre zoned lots, as shown in the Greenwich GIS Parcels Map annexed as Exhibit T, which represents the actual parcels built out in accordance with the zoning regulations shown on the Town of Greenwich Zoning Map (Ex. K to the June 24 report). Shifting more densely populated neighborhoods from District 151 to 149 and more affluent neighborhoods from District 149 to 151 would dilute the minority vote unfairly and is unnecessary given the ability to draw Districts 150 and 151 in conformity with the "one man one vote" principal underlying reapportionment.

The best thing about the proposed plans for reapportioning Districts 149, 150 and 151 is that they are based on neighborhoods readily recognizable to all residents of Greenwich. The current districts lines are the product of gerrymandering after the 1980 and 1990 censuses that disregarded neighborhoods and villages within the town. Even the incumbent Republican legislators in the Greenwich Time (July 7, 2011) acknowledged "some district boundaries defy logic". No less an authority than Livvy Floren, Representative of District 149, was quoted in the same article about the current divisions within Central Greenwich and Chickahominy: "that never made any sense to me." Any Greenwich resident knowledgeable about the neighborhoods and villages that make up Greenwich should recognize the sense behind these redistricting proposals.

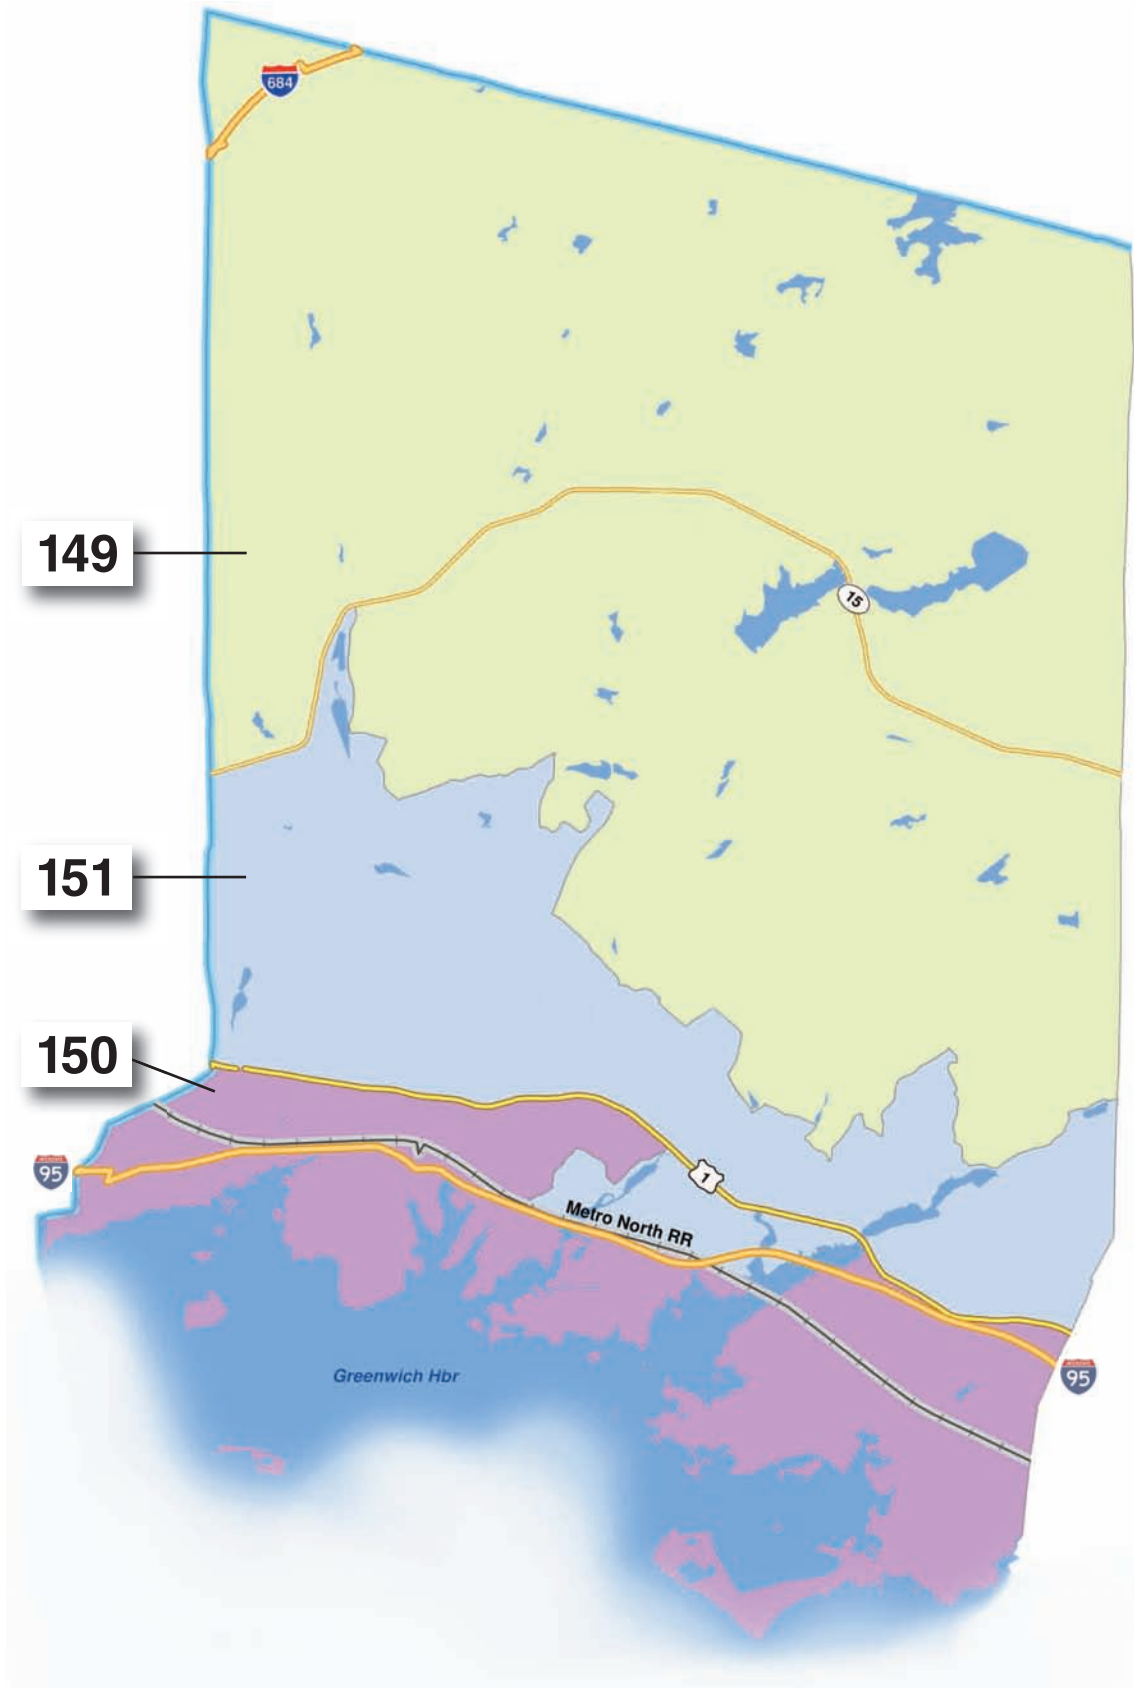

Reuniting neighborhoods and combining them with similar neighborhoods will also substantially reduce the number of split districts that confuse voters at polling places and bedevil poll workers and the Registrars of Voters.

We urge you to adopt the proposed plans to redistrict Districts 149, 150 and 151.

Very truly yours,

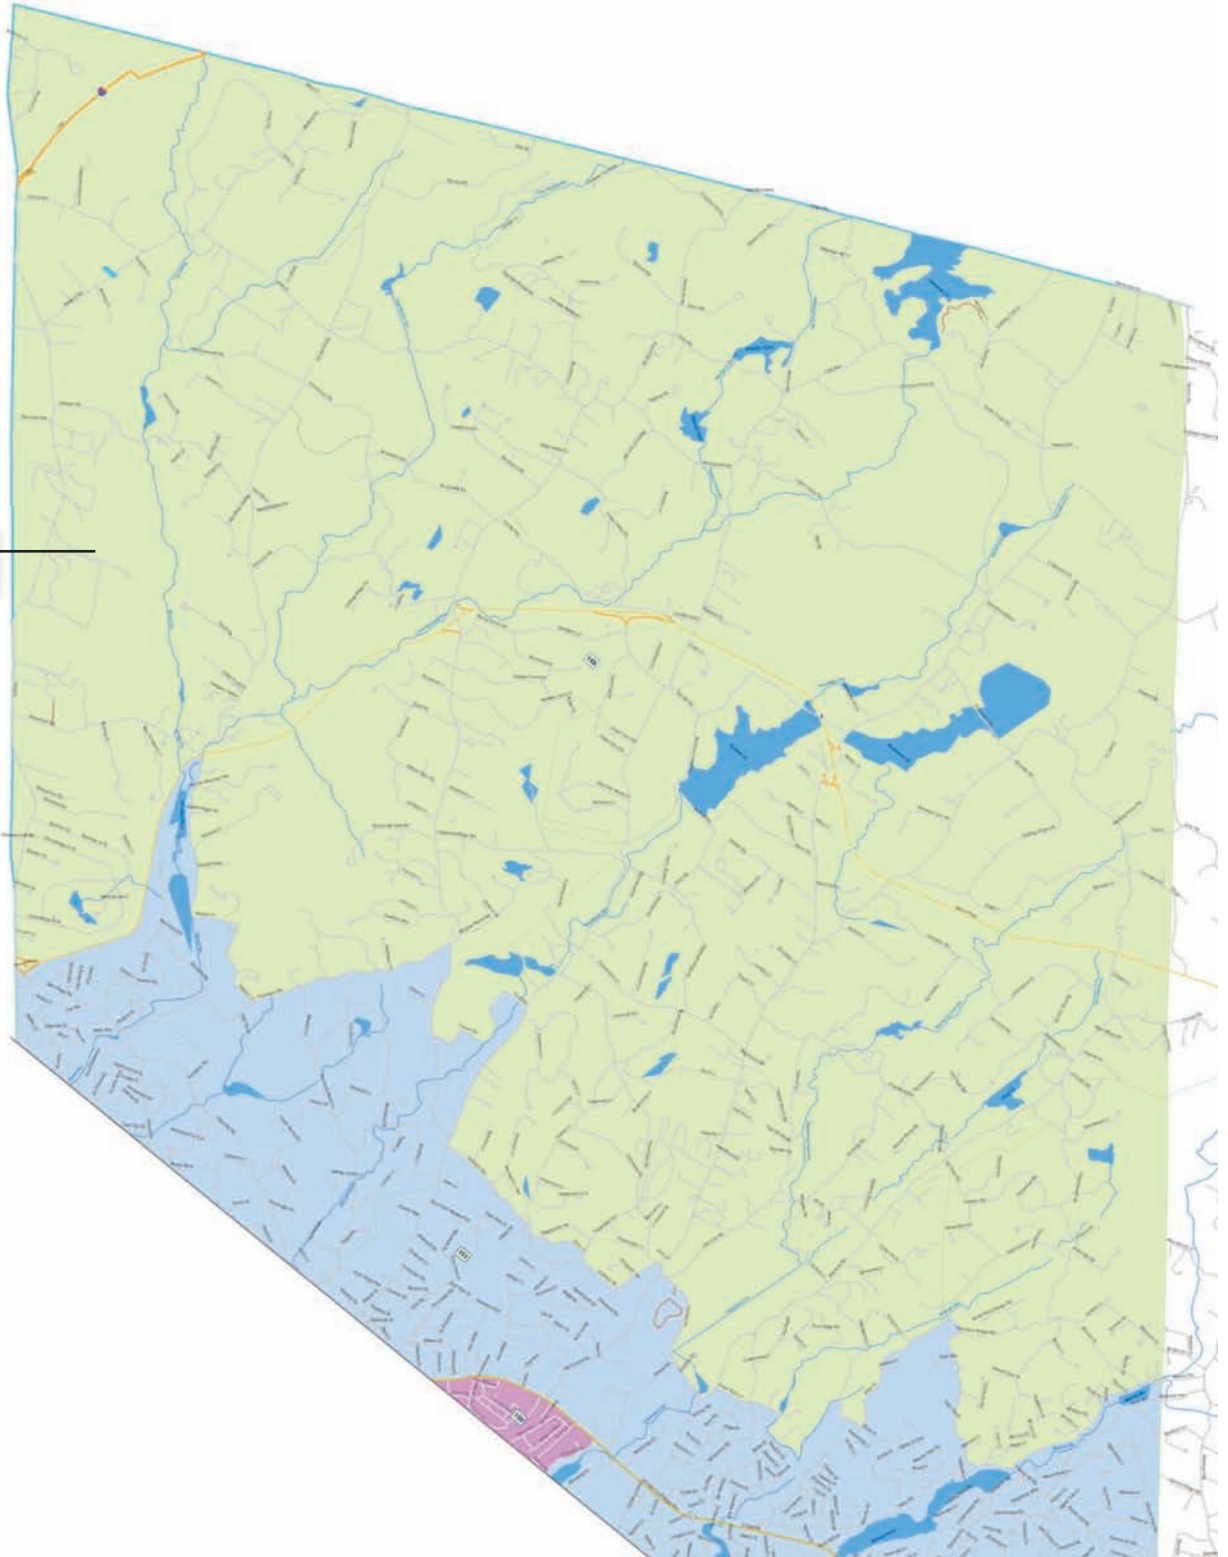

Ed Krumeich Joe Santuz

2

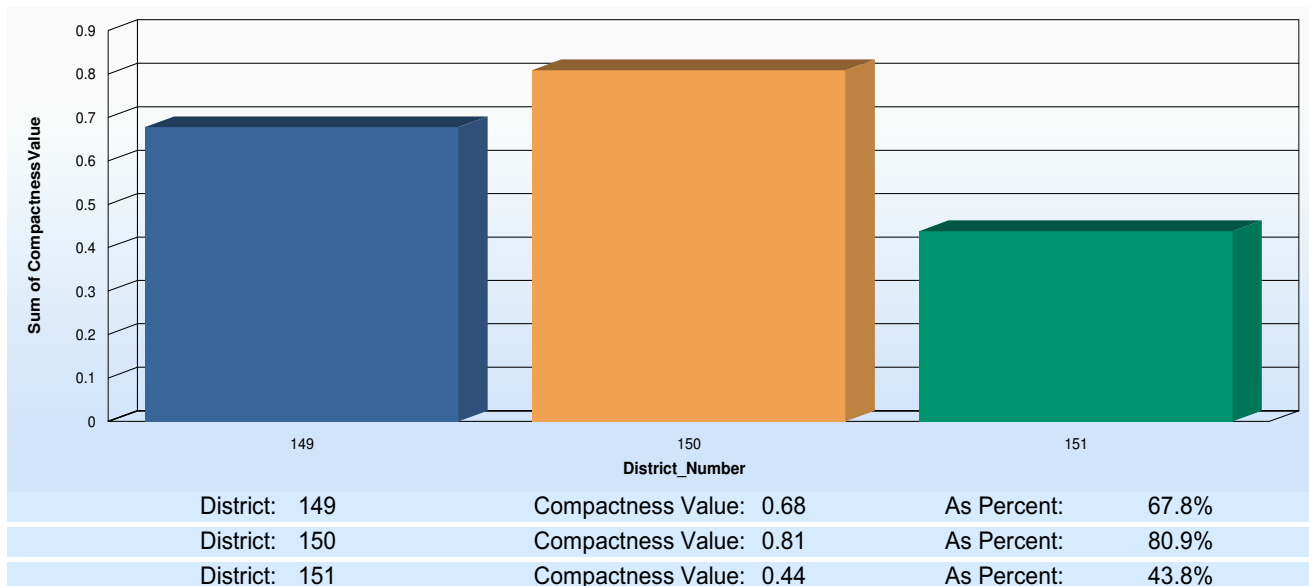

Compactness Measure:

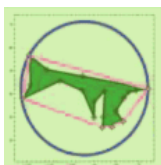

Circularity Ratio - Ratio of the area of the District to the area of a circle (the most compact shape) having the same perimeter. That ratio is expressed as $M = 4\pi(\text{area}) / (\text{perimeter})^2$. For a circle, the ratio is one. This

Compactness Measure:

Circumference of an equal area circle divided by the perimeter of the district

Compactness Measure:

District area divided by the area of the district's Convex Hull. This method is also known as the Schwartzberg test.

Compactness Measure:

District area divided by the area of the minimum circle bounding the district. This method is also known as the Roeck or Ehrenberg test.

Population Totals

DISTRICT	TAPERSONS	Target	Dev.	Difference	BLKPCT10	HSPCT10	MINPCT10	
149	13853	23,670	-41.5%	-9,817	1.0%	5.2%	6.1%
